Our dear brothers and sisters!

It is a great honor for me to present to our donors the annual report on the activities of the Salsabil Association. Most of our donors are intimately familiar with the challenges people in this world face. Namely, those who suffered from hunger, from the cold, lost their loved ones, their property, at a time when you yourself needed all kinds of help.

But today the Almighty, by his grace, has changed your situation for the better, for which we are all immensely grateful to Him.

Today, being in European countries and living in prosperity, you have not been deceived by these luxuries and have not forgotten all the sufferings and hardships you have endured in the recent past.

It is no secret that you, our dear brothers and sisters, sincerely sympathize with those who are going through difficult times, which you have not heard of before and which you did not know existed.

Despite this, you are now by their side, becoming a strong support, not distinguishing between their origin and others.

Statistics show that the poor are often helped by ordinary people and unfortunately the rich very rarely do so, although they have many more opportunities.

Our Lord said:

"They give them preference over themselves, even if they need it themselves."

Not everyone is given such wonderful qualities, and the Lord helps His slave, as long as the slave helps his brother.

In 2013, we built the first well. Today, the number of your wells is approaching 1700, or about 300 000 people in need of drinking water. As they say, even in small things there is grace. There is no doubt that it could have been possible without your help.

With God's help and then your donations, you and we have been able to provide support in many forms to thousands of people in different parts of this world.

We are honored to be the intermediary and the bridge between the needy and you in this important mission. We would like to express our sincere gratitude to the competent authorities of the French Republic, who granted us the authorization and created the conditions necessary for the implementation of the humanitarian mission in the world.

Our dear donors!

We are pleased to present to you the annual report of your projects and wish you, your families and loved ones the best blessings in both Worlds!

*With my sincere gratitude,
the President of the SALSABIL Association.*

INTRODUCTION

Since 2013, the Salsabil Association, an international humanitarian association, has been working to help people in need. The various projects set up by the association are carried out with the aim of providing support to people living in very difficult conditions, living conditions which should no longer exist in the 21st century. The association's projects mainly aim to combat the lack of water and food in countries devastated by the economic, geopolitical crisis, as well as the climatic conditions. Our actions are focused mainly on African countries which still suffer today from poverty in many regions. Many people in these countries are very badly affected by the lack of water, food, access to education. Indeed, access to essential resources today is still very difficult for too many people in the world.

Water is one of the most important vital elements necessary for human survival. Therefore, access to safe drinking water worldwide is essential. Unfortunately, today more than 2 billion people do not have direct access to water in their homes.

Food is also a vital element essential for human survival. In 2018, nearly 600 million people were still suffering from malnutrition. And this figure, already too high, is only increasing as a result of the climatic, economic, geopolitical and health situation in many countries of the world.

Finally, education as well as socio-cultural activities, essential for the development and well-being of a people, are still too inaccessible in many regions of the world.

In 2018 again, thanks to the many donors committed to helping people living in poverty, the Salsabil Association was able to act in several countries affected by precariousness, drought and famine. We continue to strive to provide the inhabitants of these poor regions with decent living conditions, enable them to survive, to have access to water and food, access to education and to the practice of socio-cultural activities. We have also implemented some projects to bring medical aid to the regions that need it most.

A FEW WORDS ABOUT

So again this year we have mainly turned our actions towards well construction projects to provide access to drinking water in the regions where it is most lacking. We have carried out construction projects of socio-cultural centers allowing development, education, serving as places of prayer and weddings, among others.

We also have carried food kits distribution projects, as well as meat distribution. We also provided clothing to the most needy, especially to protect against the cold. Finally, we provided other various humanitarian aid where the emergency required it.

In 2018, thanks to these projects, we were able to give a significant number of people living in poverty a means of survival, a means of living decently.

Here is in more detail the result of our actions by country in 2018.

THE PROCESS

The different stages of your project

THE PROCESS

Your intention

The intention is a very important part in the accomplishment of our actions. It is the intention that makes that our action will bring us a benefit: "The acts are only worth by the intentions, and the person obtains what he had as intention .."

Contact us

If you have definitely decided to have one of the charitable projects carried out, you will find additional information on all of our projects on our site. We still recommend that you contact us for more details.

Payment

Full payment is essential for the finalization of the project. Payment can be made in several installments, however unfortunately we will only be able to launch the project after the receipt of the total amount.

The start of the project

Before receiving full payment, we contact our partners who are on site and ask them to prepare everything necessary. Upon receipt of your final payment, we proceed directly to the transfer and the project will be initiated as soon as possible.

Finalization of the project

During the realization of the project we receive information (including photos and videos) on the progress of the work on site. When the work is completed, our partners send us a full photo and video report.

The report

As soon as we receive the photo and video material from our partners, we prepare a report according to Salsabil standards and send it to you. This is how your spiritual intention takes shape, through our association.

WELLS

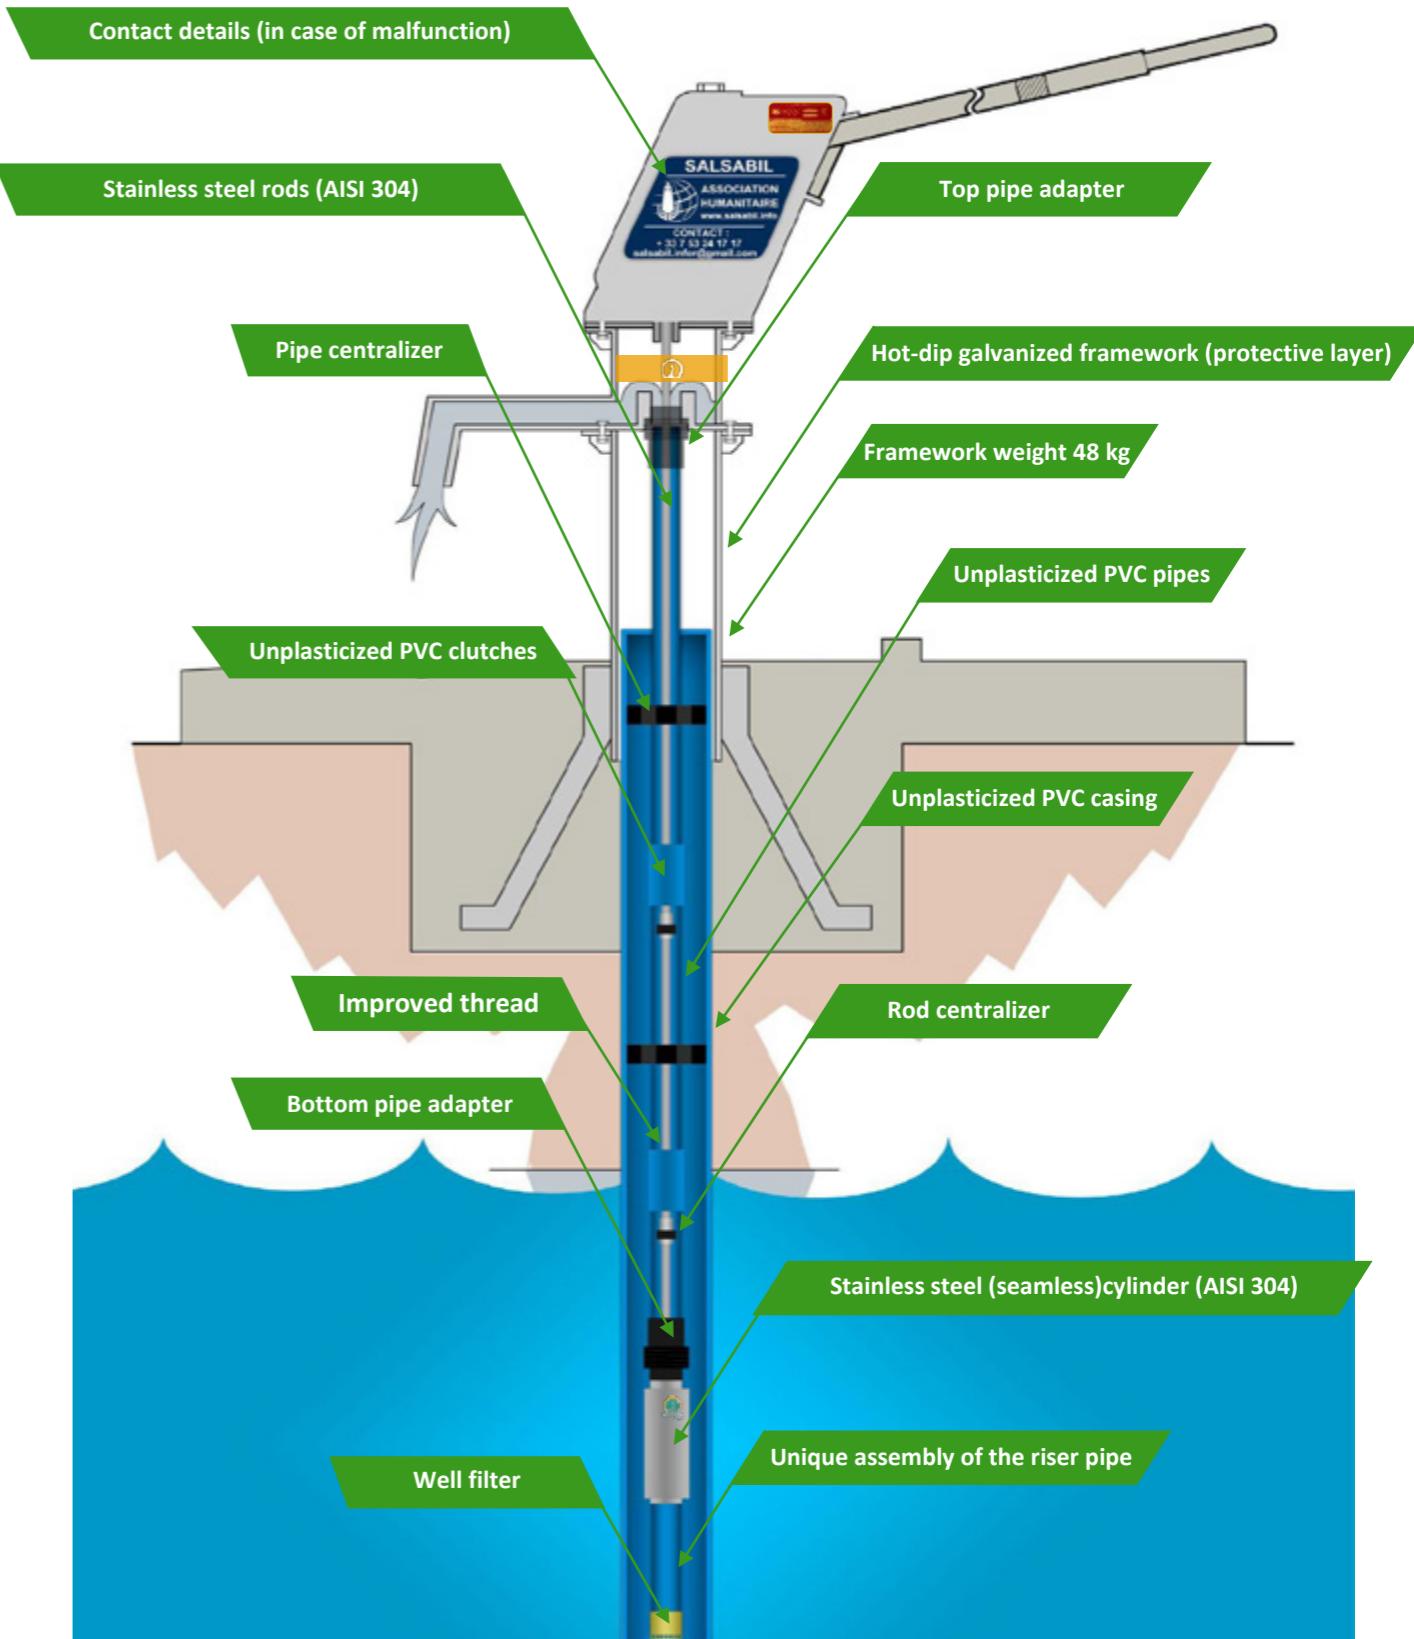

Unlike many other non-governmental organizations (NGO), we attach great importance to the origin, production conditions, raw materials used and the final quality of our water pumps and all their components.

In our case, the INDIA MARK-2 water pumps are produced directly in India, which is rightfully the birthplace of this pump. Here, for several decades now, they have been manufactured according to the latest technological advances in our partner's factory.

INDIA MARK-2 HAND PUMP COMPARISON CHART

COMPONENTS AND FEATURES	«INDIA MARK-2» SALSABIL VERSION	«INDIA MARK-2» STANDARD VERSION
Manufacturing country	India	Nigeria

GRAPHIC DIAGRAM OF OUR HAND PUMPS

MIDDLE EAST

Lebanon

Lebanon is now experiencing the biggest economic crisis in its history, mainly due to a financial sector crisis and geopolitical tensions. This crisis has had a huge impact on the situation of the country and the population. Prices are exploding, the value of the Lebanese currency is collapsing. All this results in a huge drop in the standard of living and the purchasing power of the people. The population is the victim of a very high unemployment rate and almost half of the people live below the poverty line. The Lebanese population is consequently less and less able to meet its need for food and a decent living. In addition, Lebanon is home to more than a million refugees, mostly from Palestine and Syria, and despite their will, the country is struggling to provide them all with the necessary assistance.

We therefore wanted to help this population as well as the refugees who live there and have set up projects to help those in greatest difficulty. This year our on-site projects have enabled the distribution of food. It was mainly orphans who were able to receive help from our association.

In 2018 the association was able to provide Lebanon with the following assistance:

1 640 orphans were taken care of, for an amount of **10 187 €**.

Project	Number of beneficiaries	Amount
Orphans	1 640	10 187€
In total in 2018 our projects helped 1 640 people in Lebanon for a total amount of 10 187 €.		

MIDDLE EAST

Syria

The situation in Syria is one of the most complicated in the world in the past decade. The geopolitical upheaval due to the very violent conflicts literally destroyed Syria, its economy, but also the life and property of its people. Life there has thus become very difficult for the inhabitants. The consequences of these conflicts quickly manifested themselves: the people who survived the war have very few means to continue to lead a decent life: to eat, to work, to go to school, has become very difficult, almost impossible. Many residents fled the country, but those who remained faced all these hardships. Many parents have lost their children, many children were left orphans. This is why many humanitarian organizations are trying somehow to help these people.

Our association has provided assistance by trying to support the inhabitants of this country as much as possible by providing them with food aid.

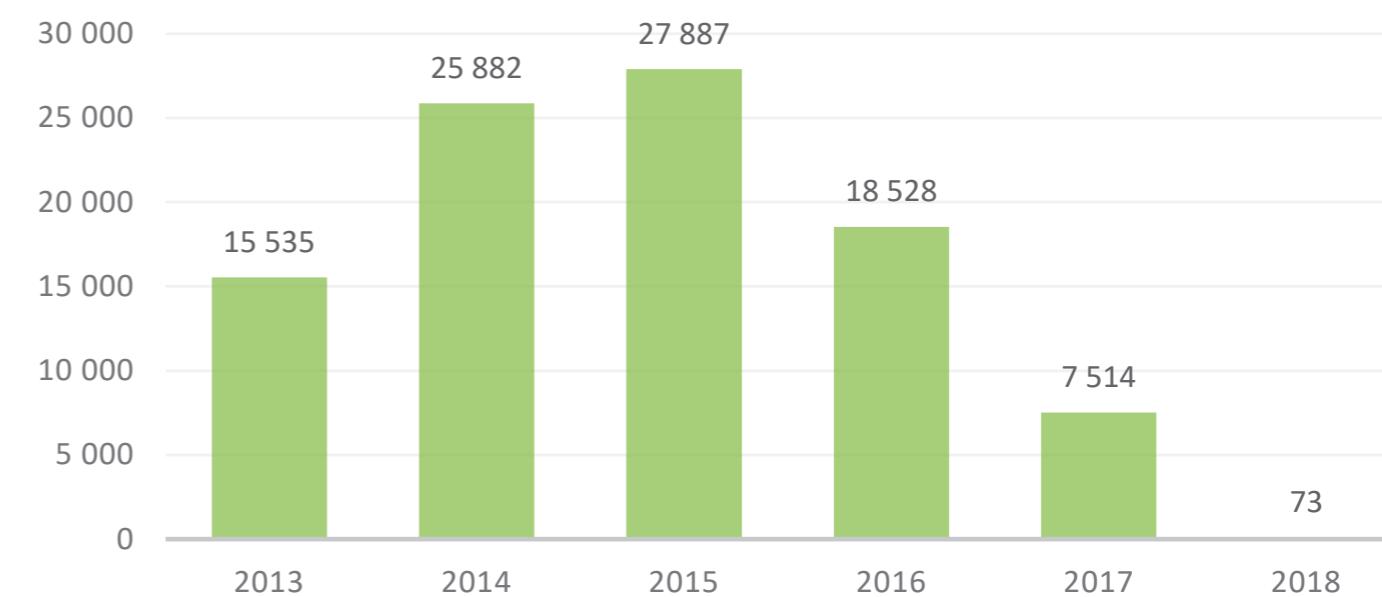

In 2018 the association was able to provide the following assistance to this region:

73 orphans were taken care of throughout the year, guaranteeing them, among other things, access to food, clothing, education, for an amount of **8 771 €**.

Project	Number of beneficiaries	Amount
Orphans sponsorship	73	8 771€

In total in 2018 our projects helped 73 people in Syria for a total amount of 8 771 €.

Number of beneficiaries in Syria per year

MIDDLE EAST

Palestine

Palestine has been facing an economic and geopolitical crisis for several decades. The restrictions put in place there because of the conflict have severely weakened the local economy, putting businesses and other institutions in the country in difficulty. The people, who are most affected by these tensions, find themselves in great economic and social precariousness: The unemployment rate is high, education and care are limited, nearly a third of the population lives below the threshold of poverty. Unfortunately, a large proportion of the people do not have access to the basic necessities for a decent life. The people of the Gaza Strip are the most affected by this crisis, many of them children. Indeed, nearly 80% of the inhabitants of the Gaza Strip depend on some form of aid.

The need for aid in this country being great we focused as a priority on our food aid projects.

In 2018 the association was able to provide the following aid to Palestine:

1 200 people were able to benefit from the distribution of food kits in the Gaza Strip for an amount of **11 665 €**.

Project	Number of beneficiaries	Amount
Food program	1 200	11 665€

In total in 2018 our projects helped 1 200 people in Palestine for a total amount of 11 665 €.

CAUCASUS

Georgia

After the war in Chechnya, many Chechens had to flee their homeland in order to survive. The refugees were scattered in Europe, Turkey, Jordan, Syria, among others. They also fled to Georgia, where some of the refugees still live. The living conditions of these refugees are not always easy, and even today our association is called upon by these refugees to come to their help. Many of these refugees find it difficult to eat properly, live in decent conditions, and protect themselves from the cold. There are also orphans among these refugees who are not fortunate enough to be properly cared of, due to a lack of resources locally.

The Salsabil Association is therefore trying to provide assistance to the most needy in this region, taking care of as many orphans as possible.

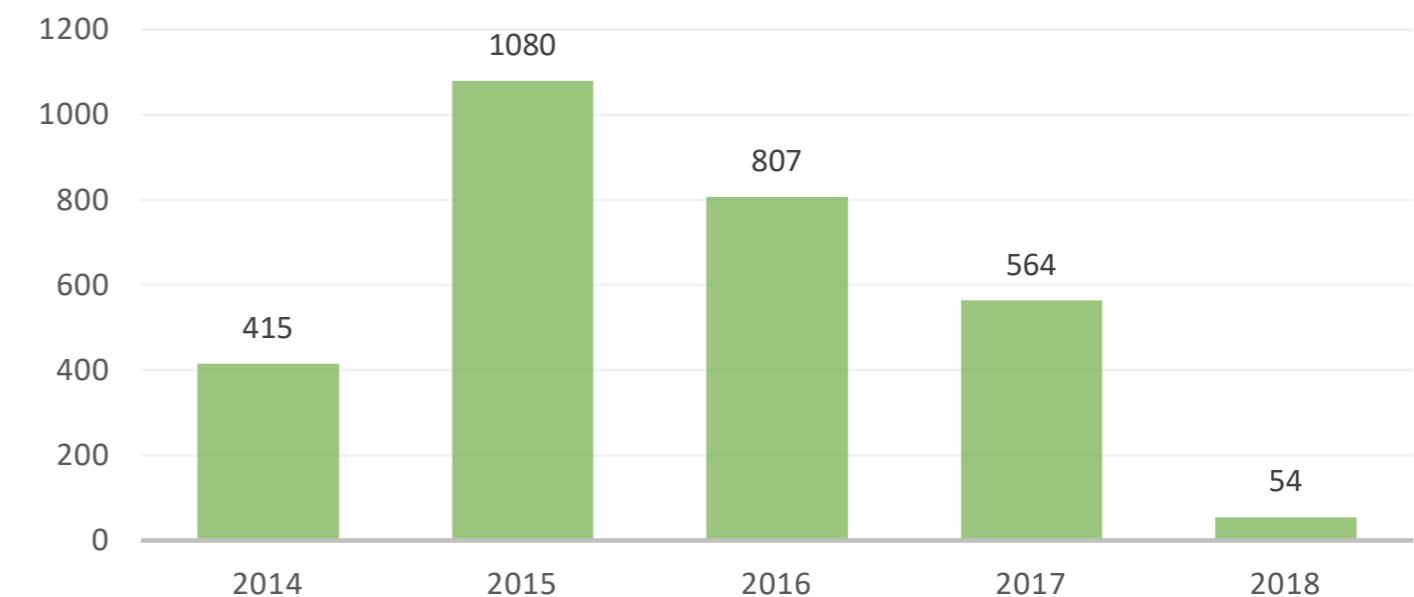

In 2018, the Salsabil Association was able to provide these refugees with the following assistance:

54 orphans were taken care of throughout the year, guaranteeing them, among other things, access to food, clothing, education, for an amount of **17 612 €**.

Project	Number of beneficiaries	Amount
Orphans sponsorship	54	17 612€

In total in 2018 our projects helped 54 people for a total amount of 17 612 €.

Number of beneficiaries in Georgia per year

AFRICA

The vast African continent is today the poorest continent in the world. Indeed, the majority of the 25 poorest countries in the world are located on the African continent. The economical crisis, the geopolitical crisis in some regions, the conflicts, but also the extreme climatic conditions, make this African continent the continent which needs the most humanitarian aid.

Our association is well aware of this, it is for this reason that we focus most of our activities in African countries.

CONTINENT OF AFRICA

WEST AFRICA

Benin, Niger, Togo

Niger as well as Togo are practically the poorest countries in the world. Niger has nearly three quarters of its population living below the poverty line. Almost half of the population of Niger lives in extreme poverty. Togo and Benin see roughly half of their population living below the poverty line. Much of the population in these countries has very little means to feed themselves. The populations of these countries also have great difficulty in accessing drinking water, in particular because of the drought in many regions of these African countries. Access to education and socio-cultural practices is also very limited.

All these difficulties of which the population of these countries is victim has led the Salsabil Association to concentrate a large part of its actions in these countries.

We have therefore concentrated our efforts on the construction of wells in the most affected regions of these countries in order to guarantee them access to a vital resource that is water, while providing significant food aid, because many people literally die of hunger and thirst. We have also looked at social problems such as the lack of education and the lack of socio-cultural centers, essential for the development and well-being of the population, and have built classrooms, and socio-cultural centers where the population can learn, develop, interact socially, pray, get married among others. We have also attached importance to the orphans present in these regions who have not been helped enough for lack of means of the local population. Indeed, the population has trouble even feeding themselves, so feeding the others ...

In 2018, the Salsabil Association was able to provide these regions with the following assistance:

We allocated **229 756€** to well constructions for a total of **41 060** beneficiaries.

31 612 people were able to benefit from the distribution of food kits for an amount of **56 215 €**.

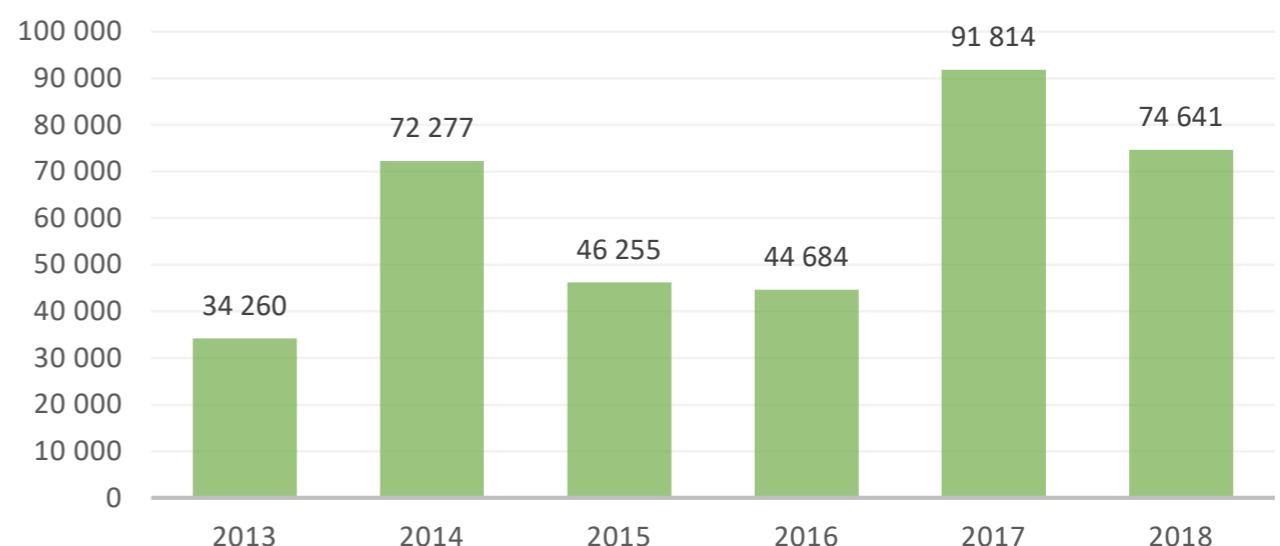

40 orphans were taken care of throughout the year, guaranteeing them, among other things, access to food, clothing, education, for an amount of **15 968 €**.

16 Sociocultural Centers were built for **1 938** beneficiaries, for an amount of **151 651 €**.

Project	Number of beneficiaries	Amount
Orphans sponsorship	40	15 968€
Food program	31 612	56 215€
Sociocultural Centers	1 938	151 651€
Wells	41 060	229 756€
Hand water pumps	"Salsabil Version"	49 655€

In total in 2018 our projects were able to help 74 641 people in this region for a total amount of 503 245 €.

Number of beneficiaries in West Africa per year

AFRICA

Chad

We have studied the other poorer regions in which we could provide optimal assistance. We have therefore carried out our actions in the regions of the Sahelian belt, which again brings together populations in extreme difficulty. This assistance was provided in particular in the most remote villages, victims of drought, extreme poverty and the lack of socio-cultural and educational structures.

The action of the Salsabil Association in these regions was therefore similar to the actions carried out in the African countries mentioned above, such as the supply of food products, the construction of wells and socio-cultural centers, the care of orphans..

In 2018, the Salsabil Association was able to provide these regions with the following assistance:

We allocated **27 863€** to well constructions for a total of **7 550** beneficiaries.

3 500 people were able to benefit from the distribution of food kits for an amount of **20 375 €**.

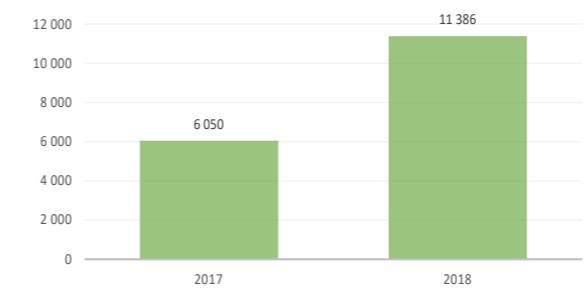

1 Sociocultural Center was built for 306 beneficiaries, for an amount of **9 637 €**.

We allocated **5 094 €** to educational projects.

Project	Number of beneficiaries	Amount
Wells	7 550	27 863€
Food program	3 500	20 375€
Sociocultural Center	306	9 637€
Education class	30	5 094€

In total, in 2018 our projects were able to help 11 386 people in these regions for a total amount of 62 969 €.

Number of beneficiaries in Chad per year

CONCLUSION

CONCLUSION

2018 has been a very difficult year for many people around the world. Economic and social, geopolitical and climatic crises have been accompanied and worsened by a global health crisis which has left many people dead and sick. Our association has tried to adapt to this crisis and to continue to accomplish our projects as efficiently as possible. Our efforts finally paid off: we were able to help nearly one hundred thousand needy people around the world thanks to our various projects which were all of vital importance. This aid for an amount of 614 447 € would never have been possible without our donors who play an important role in the survival and well-being of hundreds of thousands of needy people.

We have been acting since 2013 with our humanitarian aid projects and did not think that we would continue to develop so much, bringing help to more and more people every year, being more and more effective in accomplishing our projects.

On our side, we are committed to continuing to do everything in our power to be able to develop further and provide our assistance to more people around the world.

The association would like to thank all our donors, our partners present on site as well as all those who participate in one way or another in the accomplishment of our projects.

NUMBER OF BENEFICIARIES IN 2018

Salsabil's humanitarian projects and the countries in which these projects are carried out change according to the humanitarian situation in the world.

Number of beneficiaries per country

Africa

Benin	19 427
Niger	37 156
Chad	11 386
Togo	18 058
