*Dear donors!*

*It is a great honor for me to present you our report on the activities of Salsabil for 2021. In this difficult period for the whole world, your hearts, endowed with generosity, continued to help the people in need around the world.*

*Epidemic, famine, natural disasters and wars have led to the deaths of millions of people around the world. It was especially difficult for poor countries.*

*The years of the pandemic were not easy for all of the humanity, but it was twice more difficult for the poor regions. Along with the lack of food, they also faced a lack of medical equipment and medicines. But you, our sponsors, did not leave them alone with their misfortune. Some of the donors, were unable to continue their participation in our projects due to financial issues. Others, in turn, have joined us in our work relatively recently. But, in general, people still continue to willingly finance our projects, we express our deep gratitude to everyone who supported the people in need, even with the smallest of what they have. May your donations be a source of good in your life!*

*You also sensitively respond to our calls and have become a solid support for people whose existence you did not know before.*

*We were able to provide versatile support to thousands of those in need in different parts of the world.*

*In 2013, we built our first well in Africa, and today the number is more than two thousands and eight hundred. That is how, over a million people have gained access to clean drinking water.*

*In conclusion, I will say that making a donation is a mercy and a sign of goodness and not everyone is endowed with it.*

*The biggest part of Salsabil donors are people with average incomes.*

*We are honored to mediate between you, and the needy poor.*

*On behalf of all employees of the Salsabil Association, I express my sincere gratitude for your trust!*

## INTRODUCTION

Since 2013 the Salsabil Association, an international humanitarian association, has been working to help people in need. The various projects set up by the association are carried out with the aim of providing support to people living in very difficult conditions, living conditions that should no longer exist in the 21st century. The association's projects are mainly aimed at fighting the lack of water and food in countries devastated by the economic and geopolitical crisis, as well as climatic conditions. In addition, the current global health crisis has put these countries in even greater difficulty. Our actions are mainly directed towards African countries which still suffer from poverty in many regions today. Many people in these countries are very strongly affected by the lack of water, lack of food, lack of access to education.

Indeed, access to essential resources today is still very difficult for too many people in the world.

Water is one of the most important vital elements necessary for the survival of human beings. As a result, access to drinking water throughout the world is essential. Unfortunately, today more than 2 billion people do not have direct access to water at home. Food is also a vital element essential to the survival of human beings. In 2021, more than 720 million people were still suffering from malnutrition. And this figure, already too high, is only increasing following the climatic, economic, geopolitical and health situation in many countries of the world.

Finally, education and socio-cultural activities, essential for the development and well-being of a people, are still too inaccessible in many regions of the world.

2021 has not been an easy year for the whole world, plunged into a pandemic for two years, a pandemic that has been disastrous economically and health-wise for many countries. This pandemic has accentuated the difficulties of poor countries, which were already struggling to even feed themselves properly.

## A FEW WORDS ABOUT

In 2021 again, thanks to the many donors committed to helping people living in poverty, despite a difficult financial situation for some. The Salsabil Association has been able to act in 13 countries affected by precariousness, drought and famine. We continue to strive to provide the inhabitants of these poor regions with decent living conditions, to allow them to survive, to have access to water and food, access to education and access to socio-cultural activities. We have also implemented some projects to bring medical aid to the regions that need it most.

This year again, we have therefore mainly focused our actions on wells construction projects to provide access to drinking water in the regions where it is most lacking. We have carried out projects for the construction of socio-cultural centers allowing development, education, serving as places of prayer and weddings among others. We also have food parcels distribution projects, as well as meat distribution. We have also provided clothing for the most needy, especially to protect against the cold. Finally, we brought other various humanitarian aid where the emergency situation required it.

In 2021, thanks to these projects, we were able to give a significant number of people living in poverty a means of survival, a means of living decently.

Here is in more details, the result of our actions by country in 2021

## THE PROCESS

The different stages of your project

### Your intention

The intention is a very important part in the accomplishment of our actions. It is the intention that makes that our action will bring us a benefit: "The acts are only worth by the intentions, and the person obtains what he had as intention .."

### Contact us

If you have definitely decided to have one of the charitable projects carried out, you will find additional information on all of our projects on our site. We still recommend that you contact us for more details.

### Payment

Full payment is essential for the finalization of the project. Payment can be made in several installments, however unfortunately we will only be able to launch the project after the receipt of the total amount.

### The start of the project

Before receiving full payment, we contact our partners who are on site and ask them to prepare everything necessary. Upon receipt of your final payment, we proceed directly to the transfer and the project will be initiated as soon as possible.

### Finalization of the project

During the realization of the project we receive information (including photos and videos) on the progress of the work on site. When the work is completed, our partners send us a full photo and video report.

### The report

As soon as we receive the photo and video material from our partners, we prepare a report according to Salsabil standards and send it to you. This is how your spiritual intention takes shape, through our association.

## THE PROCESS

# WELLS

 **3300+**  
wells already  
built

**33%**  
At the time of a study jointly conducted by UNICEF and SKAT in 2010, one third of all hand-operated pumps across Africa were inoperative.

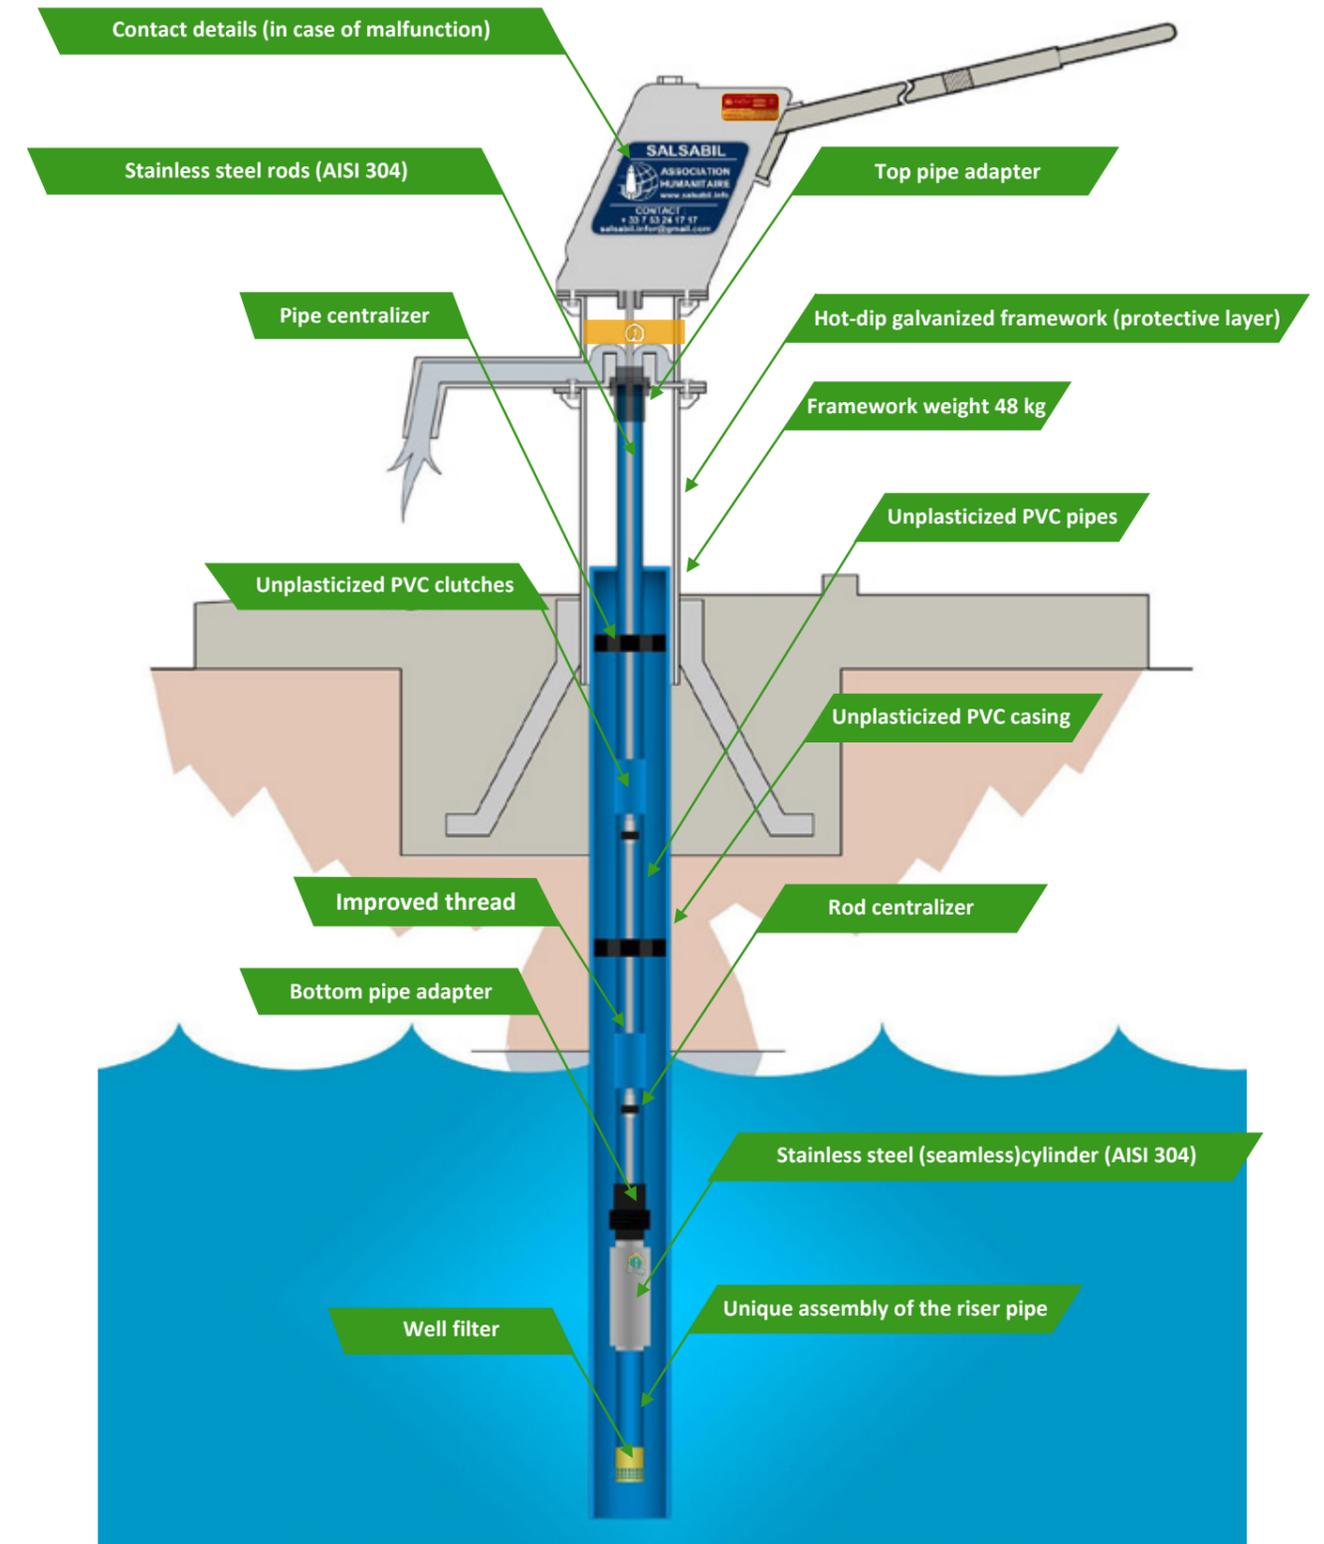

Unlike many other non-governmental organizations (NGO), we attach great importance to the origin, production conditions, raw materials used and the final quality of our water pumps and all their components.

In our case, the INDIA MARK-2 water pumps are produced directly in India, which is rightfully the birthplace of this pump. Here, for several decades now, they have been manufactured according to the latest technological advances in our partner's factory.

## INDIA MARK-2 HAND PUMP COMPARISON CHART

COMPONENTS AND FEATURES	«INDIA MARK-2» SALSABIL VERSION	«INDIA MARK-2» STANDARD VERSION
Manufacturing country	India	Nigeria
Weight of the Aboveground Mechanism	48 kg	32 kg to 42 kg

# MIDDLE EAST

## Lebanon

Lebanon is currently experiencing the biggest economic crisis in its history, in particular due to a crisis in the financial sector and geopolitical tensions. This crisis has had a huge impact on the situation of the country and the population. Prices are exploding, the value of the Lebanese currency is collapsing. All this has resulted in a huge drop in the standard of living and purchasing power of the people. The population is victim of a very high unemployment rate and almost half of the population lives below the poverty line. The Lebanese population is therefore less and less able to meet its need to feed itself, to live decently. In addition, Lebanon is home to more than a million refugees, mostly from Palestine and Syria, and despite their will, the country is struggling to provide them with the necessary aid. The health crisis that has been raging for two years has put the people in even more difficulty.

This year our projects in Lebanon have allowed the care of orphans in Lebanon.

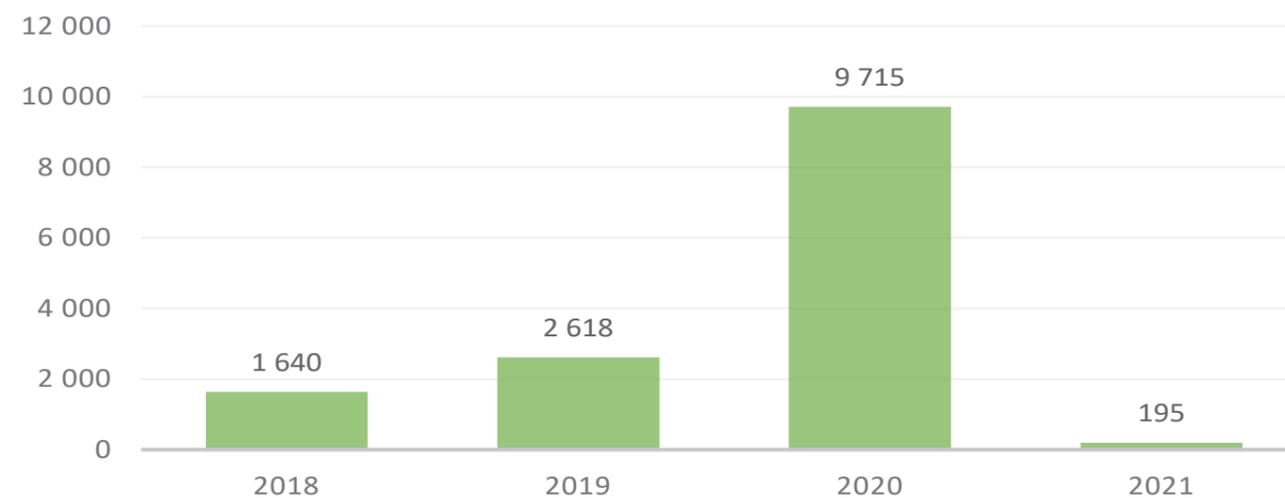

In 2021, the association was able to provide Lebanon with the following assistance:

**195** orphans were taken care of throughout the year, guaranteeing them, among other things, access to food, clothing and education, for an amount of **22 932€**.

Project	Number of beneficiaries	Amount
Orphans sponsorship	195	22 932€
In total in 2021 our projects helped 195 people in Lebanon for a total amount of 22 932 €.		

Number of beneficiaries in Lebanon per year

# MIDDLE EAST

## Palestine

Palestine has been facing an economic and geopolitical crisis for several decades. The restrictions put in place there because of the conflict have greatly weakened the local economy, which has put businesses and other institutions in the country in difficulty. The people, who are the most affected by these tensions, find themselves in great economic and social precariousness: The unemployment rate is high, education and healthcare are limited, nearly a third of the population lives below the poverty line. A large proportion of the population unfortunately does not have access to the minimum subsistence necessary for a decent life. The inhabitants of the Gaza Strip are the most affected by this crisis, including many children. Indeed, nearly 80% of the inhabitants of the Gaza Strip depend on some form of aid.

As the need for aid in this country is great, we have focused mostly on our food aid projects. We also provided assistance to orphans.

In 2021, the association was able to provide Palestine with the following assistance :

**129** orphans were taken care of, for an amount of **6 000€**.

**129** orphans were able to benefit from a distribution of clothing for an amount of **4 000€**.

**3 520** people were able to benefit from the distribution of food kits for an amount of **14 000€**.

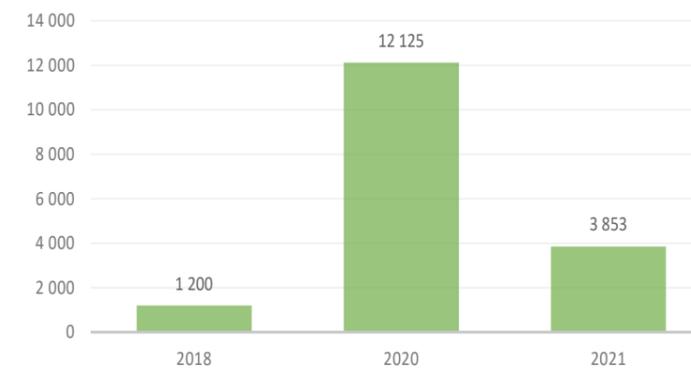

**75** people were able to benefit from the distribution of hygiene kits for an amount of **6 000€**.

Project	Number of beneficiaries	Amount
Orphans sponsorship	129	6 000€
Clothing aid	129	4 000€
Food program	3 520	14 000€
Hygiene kits	75	6 000€

In total in 2021 our projects helped 3 853 people in Palestine for a total amount of 30 000€.

Number of beneficiaries in Palestine per year

# MIDDLE EAST

## Syria

The situation in Syria is one of the most complicated in the world in the last decade. The geopolitical upheaval, due to very violent conflicts, has literally destroyed Syria, its economy, but also the life and property of its people. Life has thus become very difficult for the Syrians. The consequences of these conflicts quickly became apparent: the people who survived the war have very few means of continuing to lead a decent life: food, work, going to school have become very difficult, if not impossible. Many Syrians fled the country, but those who remained faced all these difficulties. Many parents have lost their children, many children have been orphaned. This is why several humanitarian organizations are trying somehow to bring help to these people. In 2021, the situation for Syrians has not improved, with difficulties accentuated by the pandemic which has been an economic and health disaster for the country.

Our association has provided assistance by trying to support the inhabitants of this country as much as possible by providing them food aid.

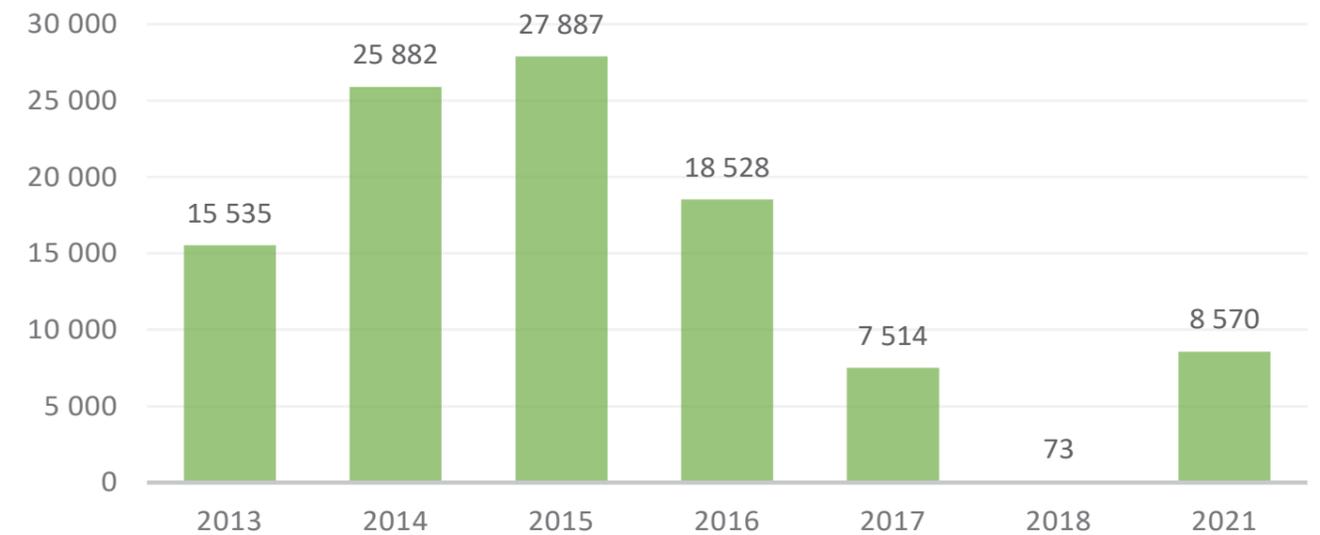

In 2021, the association was able to provide the following assistance in this region:

**8 570** people were able to benefit from the distribution of food kits for an amount of **20 000€**.

Project	Number of beneficiaries	Amount
Food program	8 570	20 000€
In total in 2021 our projects helped 8 570 people in Syria for a total amount of 20 000€.		

Number of beneficiaries in Syria per year

# MIDDLE EAST

## Other poor regions of the Middle East

The Salsabil Association has paid attention to the other regions in this geographical area affected by poverty and undernutrition, and we have also brought food aid to the most needy.

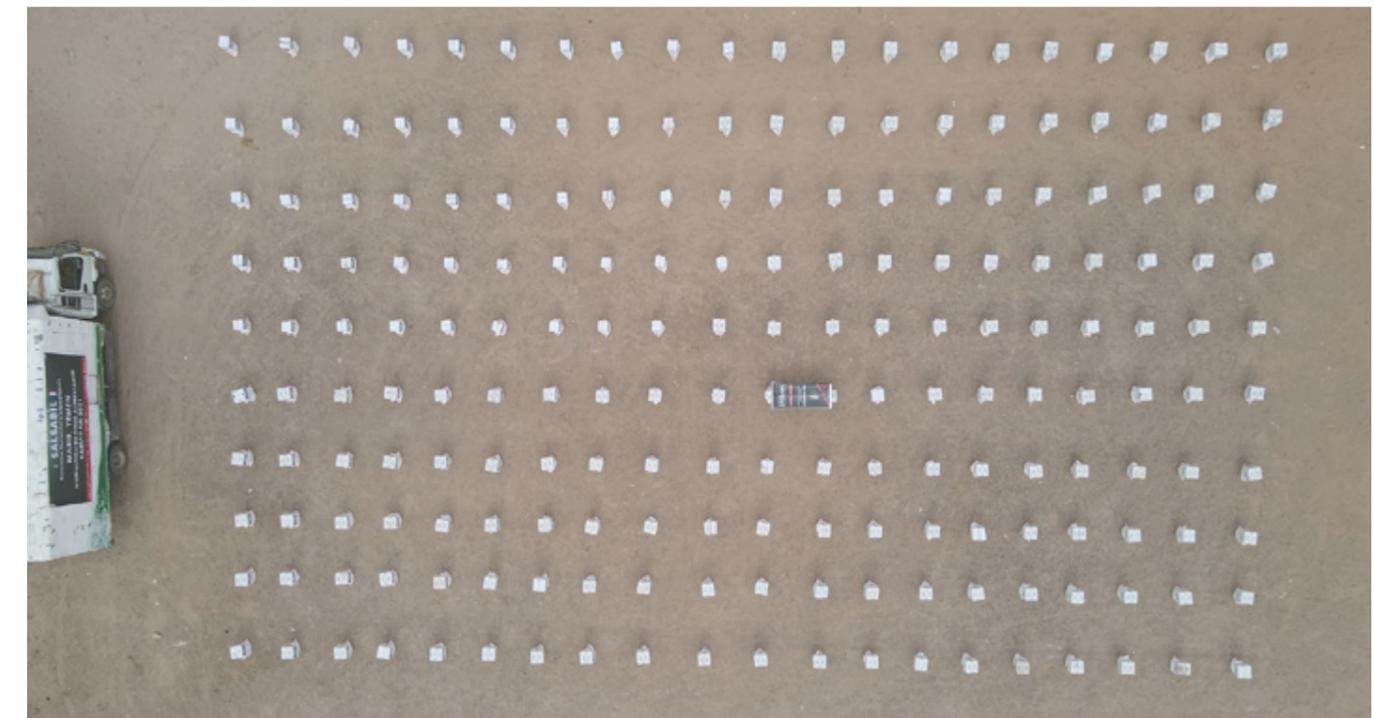

In 2021, the association was able to provide the following assistance:

**1 665** people were able to benefit from the distribution of food kits for an amount of **10 000€**.

Number of beneficiaries in these regions per year

Project	Number of beneficiaries	Amount
Food program	1 665	10 000€
In total in 2021 our projects helped 1665 people in these regions for a total amount of 10 000 €.		

# ASIA

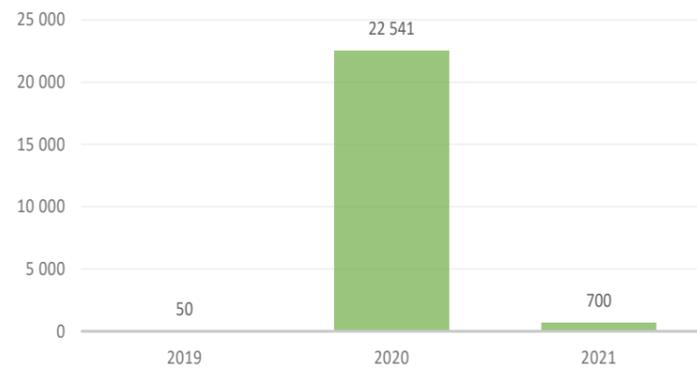

## Bangladesh

Bangladesh is still among the Least Developed Countries. Although the economic situation has improved a little over the past ten years, there are still poor regions, regions affected by the economic crisis. Indeed in 2021 nearly a quarter of the country's inhabitants live below the poverty line, 10% live in extreme poverty. In addition, climatic conditions (natural disasters, drought) make access to water very difficult in some parts of the country (mainly in the North). In addition, the current health crisis has further complicated their situation. In 2021, the association was therefore able to provide food aid to the most needy.

In 2021, the Salsabil Association was able to provide Bangladesh with the following assistance:

**700** people were able to benefit from the distribution of food kits, for an amount of **7 200€**.

Number of beneficiaries in Bangladesh per year

Project	Number of beneficiaries	Amount
Food program	700	7 200€
In total in 2021 our projects helped 700 people in Bangladesh for a total amount of 7 200 €.		

# ASIA

## Myanmar

The Rohingya people, an ethnic minority in Myanmar (Burma), have been victims of severe government repression for many years. Deprived of their most fundamental rights, they were forced to take refuge, installed in camps. Without access to social assistance, healthcare or the right to education. Their economic situation is all the more aggravated. This ethnic minority finds it more and more difficult to live decently, and even struggles to feed or dress themselves. The Salsabil association again this year came to the aid of these people, by organizing food aid projects.

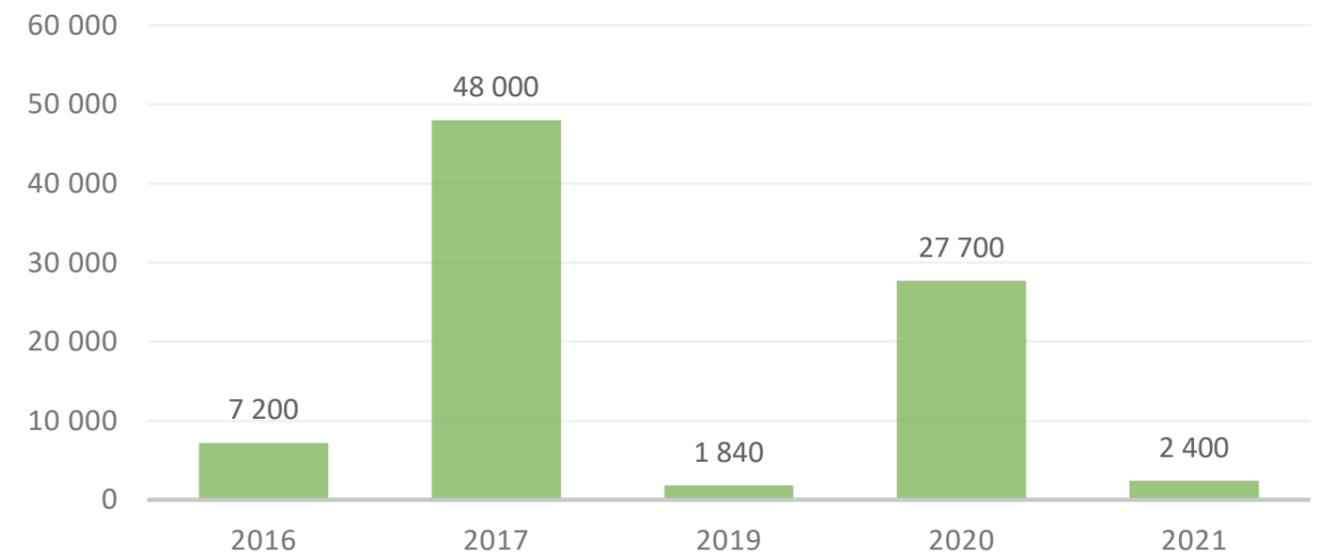

In 2021, the Salsabil Association was able to provide the following assistance in this region:

**2 400** people were able to benefit from the distribution of food kits for an amount of **5 000€**.

Project	Number of beneficiaries	Amount
Food program	2 400	5 000€
In total in 2021 our projects helped 2 400 people in Myanmar for a total amount of 5 000€.		

Number of beneficiaries in Myanmar per year

# CAUCASUS

## Georgia

After the war in Chechnya, many Chechens had to flee their native land to survive. The refugees were scattered in Europe, Turkey, Jordan, Syria among others. They also fled to Georgia, where some of the refugees still live. The living conditions of these refugees are not always easy, and today our association is still asked by these refugees to help them. Many of these refugees have difficulty getting enough food, living in decent conditions, protecting themselves from the cold. There are also among these refugees orphans who do not have the chance to be properly cared for, due to a lack of means on the spot.

The Salsabil Association therefore tries to provide assistance to the most needy in this region, by providing them with food, and by taking care of as many orphans as possible.

In 2021 the Salsabil Association was able to provide these refugees with the following assistance:

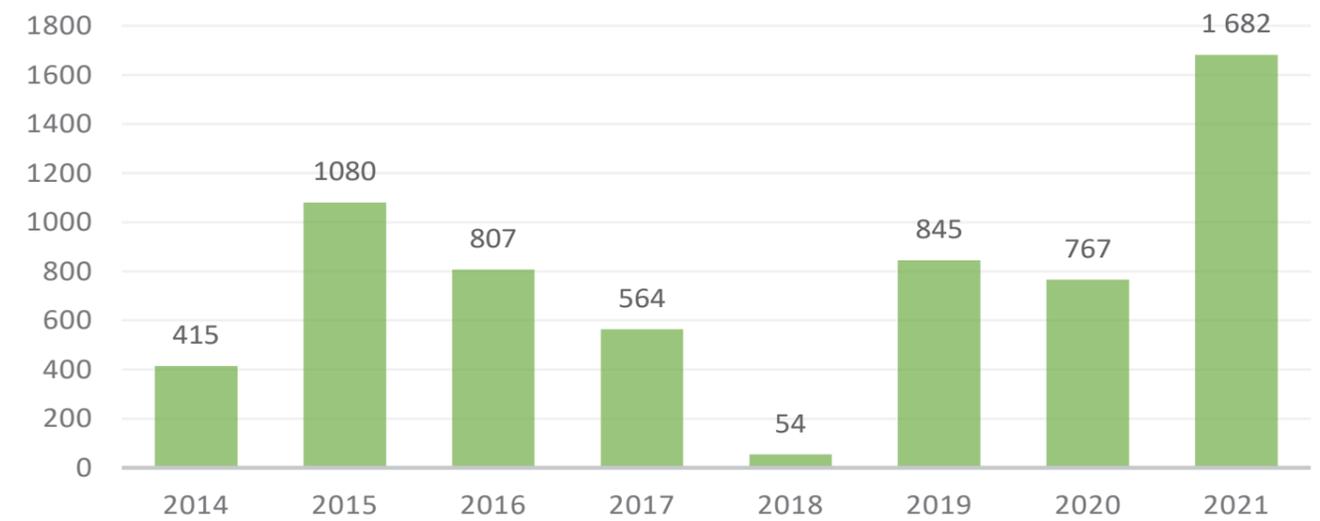

**32** orphans were taken care of, for an amount of **3 968€**.

**1 650** people were able to benefit from the distribution of food kits for an amount of **14 552€**.

Project	Number of beneficiaries	Amount
Orphans	32	3 968€
Food program	1 650	14 552€
In total in 2021 our projects helped 1 682 people in Georgia for a total amount of 18 520 €.		

Number of beneficiaries in Georgia per year

# CAUCASUS

## Azerbaijan

Refugees are also present in this region, for the same reasons. Their living conditions are also very difficult there for some. Many are struggling to feed themselves properly, and unfortunately do not receive enough outside help.

The Salsabil Association has therefore provided assistance to refugees in this region through our food aid projects.

In 2021, the association was able to provide the following assistance in this region:

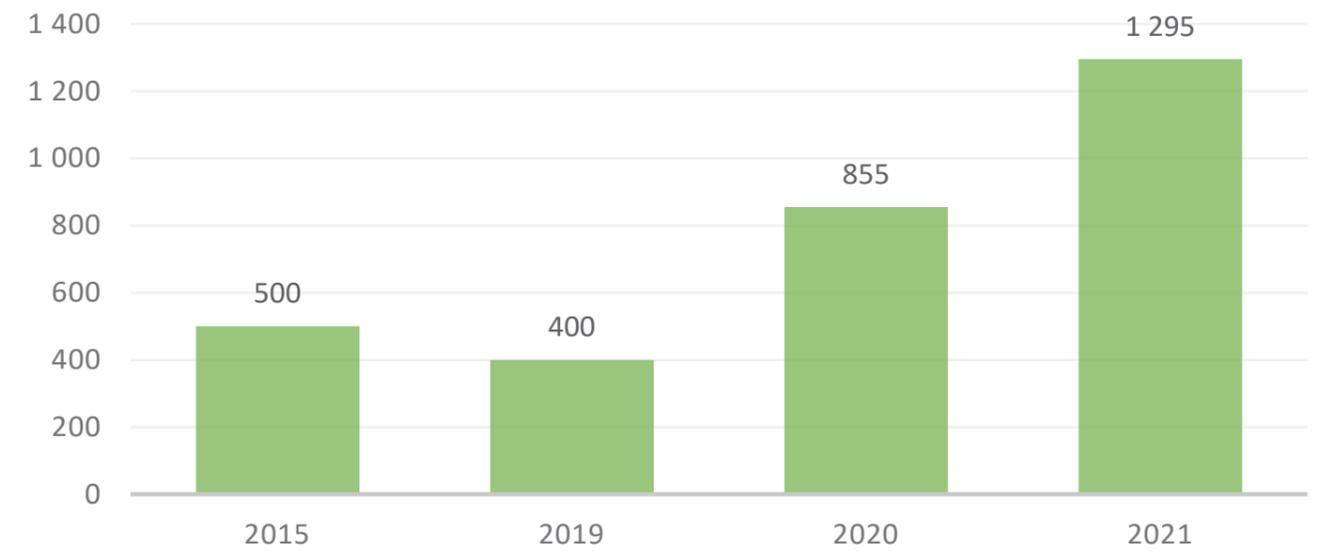

**1 295** people were able to benefit from the distribution of food kits for an amount of **12 339€**.

Project	Number of beneficiaries	Amount
Food program	1 295	12 339€

In total in 2021 our projects helped 1 295 people in Azerbaijan for a total amount of 12 339€.

Number of beneficiaries in Azerbaijan per year

## AFRICA

The vast African continent is today the poorest continent in the world. Indeed the vast majority of the 25 poorest countries in the world are located on the African continent. The economic crisis, the geopolitical crisis in certain regions, the conflicts, the current global health crisis, but also the extreme climatic conditions, make this African continent the continent that requires the most humanitarian aid.

Our association is well aware of this, which is why we concentrate most of our activities in African countries.

## CONTINENT OF AFRICA

# WEST AFRICA

## Benin, Niger, Togo

Niger and Togo are among the poorest countries in the world. Niger has almost three quarters of its population living below the poverty line. Nearly half of Niger's population lives in extreme poverty. Togo and Benin see about half of their population living below the poverty line. A large part of the population in these countries has very few means of feeding themselves. The population of these countries also has great difficulty in accessing drinking water, in particular because of the drought in many regions of these African countries. Access to education and socio-cultural practices is also very limited.

All these difficulties suffered by the population of these countries have led the Salsabil Association to concentrate a large part of its actions in these countries.

We have therefore concentrated our efforts on building wells in the most affected regions of these countries in order to guarantee them access to a vital resource, water, while at the same time providing significant food aid, because many people literally die of hunger and thirst. We have also looked into social problems such as the lack of education and the lack of socio-cultural centers, which are essential for the development and well-being of the population, therefore we built school classes and socio-cultural centers where the population can educate, develop, interact socially, pray, marry among others.

We have also attached importance to the orphans in these regions who have not been sufficiently helped due to the lack of resources of the local population. Indeed the population is struggling to even feed themselves, so feed others...

In 2021 the Salsabil Association was able to provide these regions with the following assistance:

Wells were built for **56 850** beneficiaries, for an amount of **112 703€**.

**13 800** people were able to benefit from the distribution of food kits for an amount of **19 000€**.

**50** orphans were taken care of throughout the year, guaranteeing them, among other things, access to food, clothing and education, for an amount of **12 753€**.

**9** Sociocultural Centers were built for **1 180** beneficiaries, for an amount of **72 032€**.

**30** people were able to benefit from our access to education project for an amount of **3 500€**.

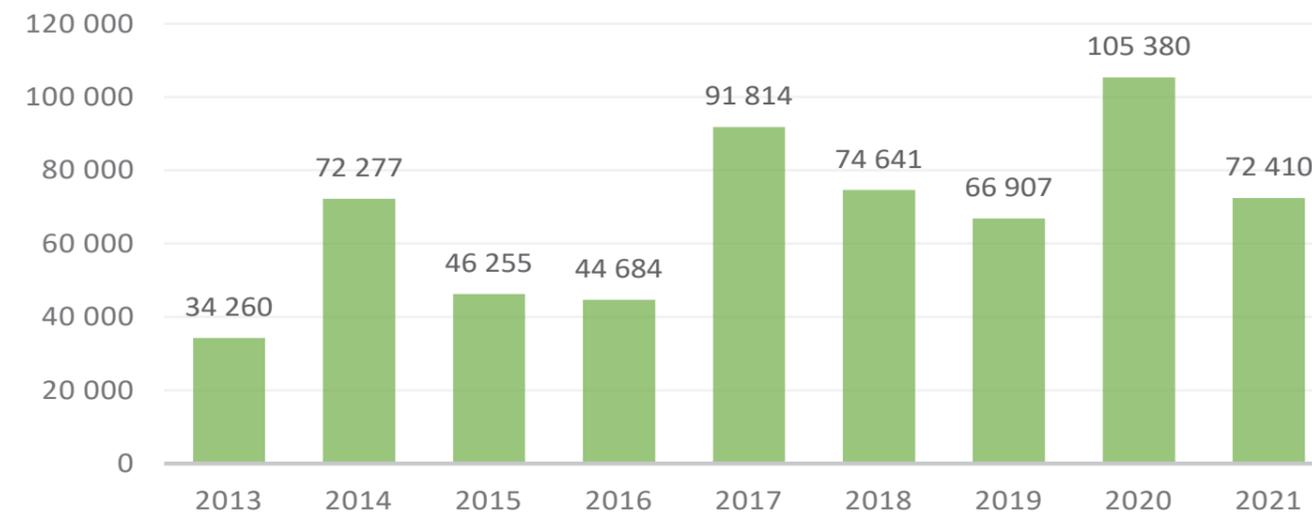

**37 199€** were invested for the water pumps.

**1** water tower was built.

Project	Number of beneficiaries	Amount
Food program	13 800	19 000€
Orphans sponsorship	50	12 753€
Sociocultural centers	1 180	72 032€
Education projects	30	3 500€
Wells	56 850	112 703€
Water well pumps	"Salsabil version"	37 199€
Water tower		

In total in 2021 our projects were able to help 72 410 people in this region for a total amount of 257 187€.

Number of beneficiaries in West Africa per year

# AFRICA

## Other poor regions of the Sahel

We have studied the other poorest regions in which we could best help. We have therefore carried out our actions in the regions of the Sahelian belt, which also includes populations in extreme difficulty. This aid was provided particularly in the most remote villages, victims of drought, extreme poverty and lack of socio-cultural and educational structures.

The action of the Salsabil Association in these regions has therefore been similar to the actions carried out in the African countries mentioned above, i.e. the supply of food products, the construction of wells and socio-cultural centers, and projects for access to education.

In 2021 the Salsabil Association was able to provide these regions with the following assistance:

Wells were built for **8 970** beneficiaries, for an amount of **33 400€**.

**32 720** people were able to benefit from the distribution of food kits for an amount of **34 950€**.

**2** Sociocultural Centers were built for **692** beneficiaries, for an amount of **46 250€**.

**3 284** people were able to benefit from access to education, with in particular the creation of **2** classes, for an amount of **18 750€**.

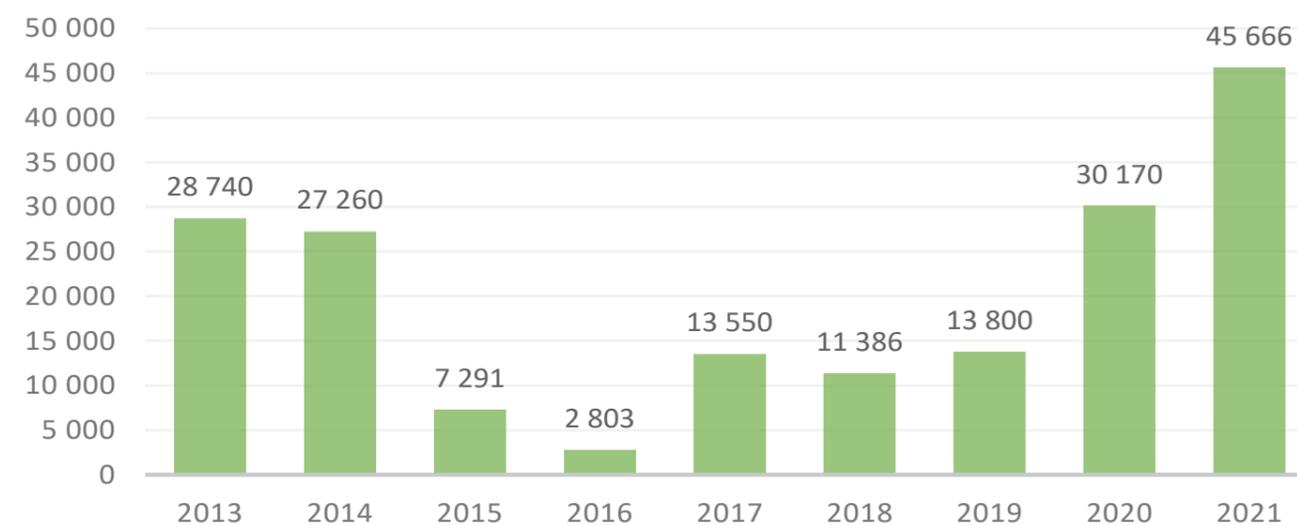

**1** water tower was built.

Project	Number of beneficiaries	Amount
Wells	8 970	33 400€
Food program	32 720	34 950€
Sociocultural centers	692	46 250€
Education projects	3 284	18 750€
Water tower		

In total in 2021 our projects were able to help 45 666 people in these regions for a total amount of 133 350 €.

Number of beneficiaries in other poor regions of the Sahel per year

## EUROPE

### Strasbourg

During the month of February 2021, we at Association Salsabil have allocated **10 000€** to our partner organization Confédération Islamique Millî Görüş France (CIMG). These funds have contributed to finance a large-scale construction project of "Eyyub Sultan" complex in the city of Strasbourg.

One of the main objectives at "Eyyub Sultan" is to insure personal development and school success of younger generations within the boundaries of a healthy Islamic ethic.

Project	Amount
Sociocultural center	10 000€
In total in 2021 our projects were able to help in Strasbourg for a total amount of 10 000€.	

# CIMG

## CONCLUSION

## CONCLUSION

The year 2021 has been very difficult for many people around the world. The economic and social, geopolitical and climatic crises have been accompanied and worsened by a global health crisis which has caused many deaths and illnesses. Our association has tried to adapt to this crisis and to continue to accomplish our projects as efficiently as possible. Our efforts ended up paying off: we were able to help nearly **140 000** needy people around the world thanks to our various projects, all of which were of vital importance. This aid of an amount of **526 528€** would never have been possible without our donors who participate enormously in the survival as well as the well-being of hundreds of thousands of needy people.

We have been acting since 2013 with our humanitarian aid projects and did not think that we would continue to grow so much, helping more and more people every year, being more and more efficient in carrying out of our projects.

We are committed on our part to continue to do everything possible to be able to develop further and provide our assistance to more people in the world.

The association would like to thank all our donors, our partners present on site as well as all those who participate in one way or another in the accomplishment of our projects.

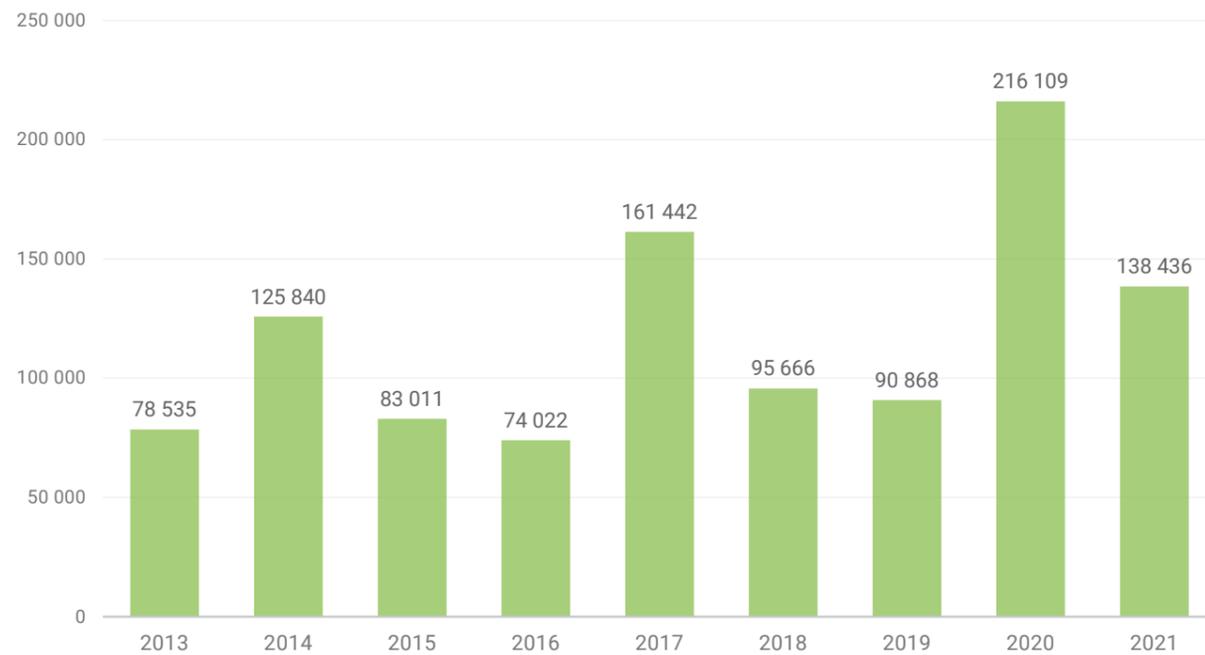

## NUMBER OF BENEFICIARIES IN 2021

Salsabil's humanitarian projects and the countries in which these projects are carried out change according to the humanitarian situation in the world.

### Number of beneficiaries per country

Africa		Asia		Caucasus		Middle East	
Benin	1 537	Bangladesh	700	Azerbaijan	1 295	Lebanon	195
Niger	60 543	Myanmar	2 400	Georgia	1 682	Palestine	3 853
Togo	10 330					Syria	8 570
Other	45 666					Other	1 665

### Total number of beneficiaries per year

## NUMBER OF BENEFICIARIES IN 2021

### Beneficiaries

In total, in 2020 our projects were able to help

**138 436** people

### The total amount

In total, in 2021 our donors helped a total amount of

**526 528€**

**Africa 118 076**

Each year, Africa has got the most donations from our donors.

**Caucasus 2 977**

Chechen refugees are the ones for whom we receive the fewest donations.

**Asia 3 100**

Today, we are still receiving calls for help from Asian countries.

**Middle East 14 283**

Lebanon is home to more than a million refugees, mostly from Palestine and Syria.
