*Dear donors!*

*It is a great honor for me to present you with Salsabil's activity report for 2022. In these difficult times for the whole world, your generous hearts have continued to help people in need around the globe.*

*Epidemics, famine, natural disasters and wars took the lives of millions around the world. It was particularly difficult for poor countries.*

*The years during the pandemic were not easy for all mankind, but they were twice as hard for poor regions. As well as a lack of food, they also had to cope with a lack of medical equipment and medicines. But you, our donors, did not leave them alone in their misfortune. Some of our donors were unable to continue their involvement in our projects because of financial difficulties. Others, in their turn, have recently joined us in our work. But in general, people always continue to fund our projects of their own free will, and we express our deep gratitude to all those who have supported those in need, even with the little they have. May your donations be a source of good for you!*

*You also respond sensitively to our appeals and have become a strong support for people you didn't know existed before.*

*We have been able to provide versatile support to thousands of people in need in different parts of the world.*

*In 2013, we built our first well in Africa, and today that number has almost reached four thousand. As a result, over a million people have gained access to clean drinking water.*

*In conclusion, I would say that making a donation is a mercy and a sign of kindness, and not everyone is endowed with it.*

*Most of Salsabil's donors are middle-income earners.*

*We are honored to serve as an intermediary between you and the needy poor.*

*On behalf of all the employees of the Salsabil Association, I would like to express my sincere gratitude for your trust!*

A handwritten signature in black ink, appearing to be 'Anaïs', written in a cursive style.

# INTRODUCTION

Since 2013 the Salsabil association, an international humanitarian association, has been working to help people in need. The various projects set up by the association are carried out with the aim of providing support to people living in very difficult conditions, living conditions that should no longer exist in the 21st century. The association's projects combat the lack of water and food in countries in countries devastated by economic and geopolitical crisis, and climatic conditions. What's more, the current global health crisis has put these countries in even greater difficulty. Our actions are mainly focused on African countries, which are still suffering from poverty in many areas.

Many people in these countries are severely affected by the lack of water, food and access to education.

Indeed, access to today's essential resources is still very difficult for too many people around the world.

Water is one of the most vital elements of life, necessary for human survival. That's why access to drinking water worldwide is so essential.

indispensable. Unfortunately, today more than 2 billion people do not have direct access to water in their homes.

Food is another vital element essential to human survival.

In 2022, more than 720 million people were still suffering from malnutrition. And this figure, already too high, is only set to rise as a result of the climatic, economic, geopolitical and health situation in many of the world's countries.

Finally, education and socio-cultural activities, which are essential to the development and well-being of a people, are still too inaccessible in many parts of the world.

## A FEW WORDS ABOUT

Once again in 2022, thanks to the many donors committed to helping people living in poverty, despite the difficult financial situation. The Salsabil Association was able to take action in 13 countries affected by poverty, drought and famine. We continue to strive to provide the inhabitants of these poor regions with decent living conditions, enabling them to survive, have access to food and water, education and socio-cultural activities. We have also implemented a number of projects to bring medical aid to the regions most in need.

Once again this year, we have focused our actions on well construction projects to provide access to drinking water in the regions where it is most lacking. We have also carried out projects to build socio-cultural centers to promote development and education, and to serve as places for prayer and weddings, among other things. We also distribute food parcels and meat. We have also provided clothing to the most needy, notably to protect them from the cold. Lastly, we have provided a wide range of other humanitarian aid wherever the emergency situation required it. In 2022, thanks to these projects, we were able to give a substantial number of people living in poverty a means of survival, a means of living decently.

Here is a more detailed breakdown of our actions by country in 2022

2022 has not been an easy year for the whole world, which has been plunged into a pandemic for the past two years, a pandemic that has been disastrous in economic and health terms for many countries. The pandemic has exacerbated the difficulties of poor countries, which were already struggling to feed themselves properly.

# HOW IT WORKS

The different stages of your project

## Your intention

Intention is a very important part of our actions. It is the intention that makes our action bring us a benefit:  
"Actions are only as good as their intentions, and a person gets what he intends.."

## Contact us

If you've decided to go ahead with one of our charity projects, you'll find more information about all our projects on our website. We still recommend that you contact us for further details.

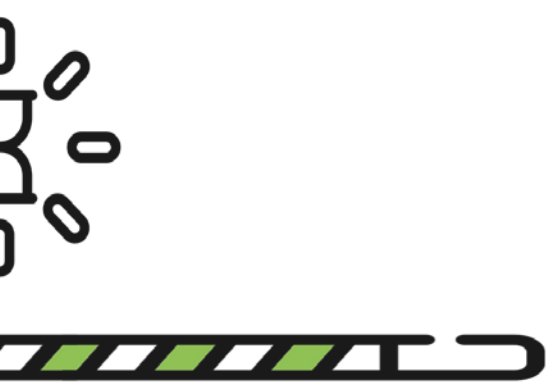

## Payment

Full payment is essential to finalize the project. Payment can be made in instalments, but unfortunately we can't start the project until we've received the full amount.

## HOW IT WORKS

A black sign with the word "START" in white capital letters, mounted on two black legs.

### The start of the project

Before we receive full payment, we contact our local partners and ask them to prepare everything we need. As soon as we receive your payment, we will proceed directly to the transfer and the project will be launched as soon as possible.

A black sign with the word "FINISH" in white capital letters, mounted on two black legs.

### Finalizing the project

While the project is underway, we receive information (including photos and videos) on how the work is progressing on site. When the work is complete, our partners send us a full photo and video report.

### The report

As soon as we receive the photo and video material from our partners, we prepare a report according to Salsabil standards and send it to you. This is how your spiritual intention takes shape, through our association.

## WELLS

33%

According to a study conducted jointly by UNICEF and SKAT in 2010, nearly a third (1/3) of human-powered pumps on the African continent were not in working order.

Unlike many other NGOs, we attach great importance to the provenance, manufacturing conditions, raw materials used and final quality of our water pumps and their components.

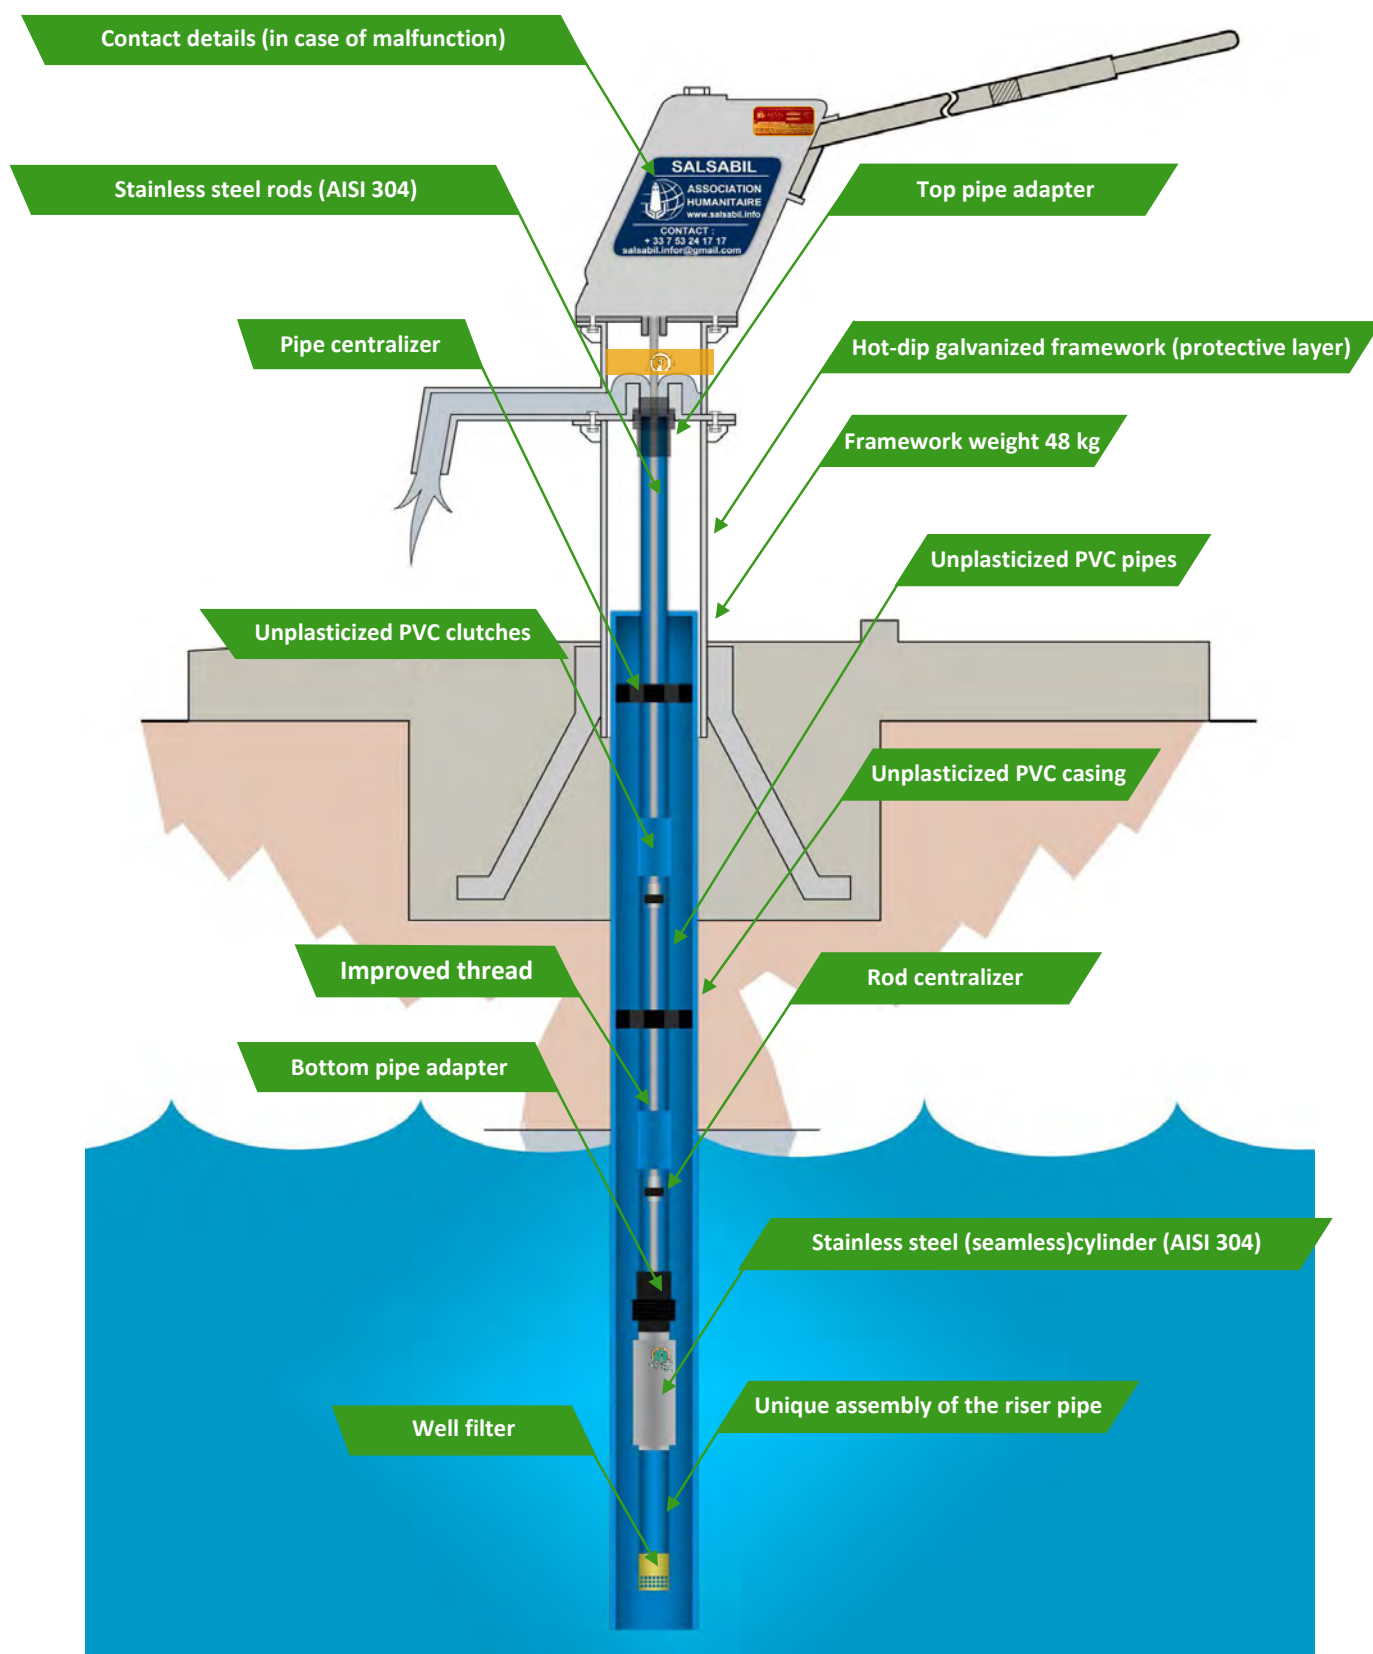

Our water pumps, on the other hand, are made in India - the country "home of the "INDIA MARK-2", where they are manufactured according to the latest technological advances in our partner's factories in India.

## INDIA MARK-2" WATER PUMP COMPARISON CHART

COMPONENTS AND FEATURES	«INDIA MARK-2» SALSABIL VERSION	«INDIA MARK-2» STANDARD VERSION
Manufacturing country	India	Nigeria

Repair service	✓	✗

## DEMONSTRATIVE GRAPH OF OUR PUMP

# EAST

## Lebanon

Lebanon is currently experiencing the biggest economic crisis in its history, due in particular to a crisis in the financial sector and geopolitical tensions. This crisis has had a huge impact on the country and its people. Prices soared, and the value of the Lebanese currency plummeted. As a result, the standard of living and purchasing power of the Lebanese people have plummeted. Unemployment is very high, with almost half the population living below the poverty line. As a result, the Lebanese population is less and less able to feed itself and live decently. In addition, Lebanon is home to over a million refugees, most of them from Palestine and Syria, and despite their determination, the country is finding it difficult to provide them all with the help they need. The health crisis that has been raging for the past two years has put the people in even greater difficulty.

This year, our local projects enabled us to take care of orphans in Lebanon.

In 2022, the association was able to provide the following aid to Lebanon:

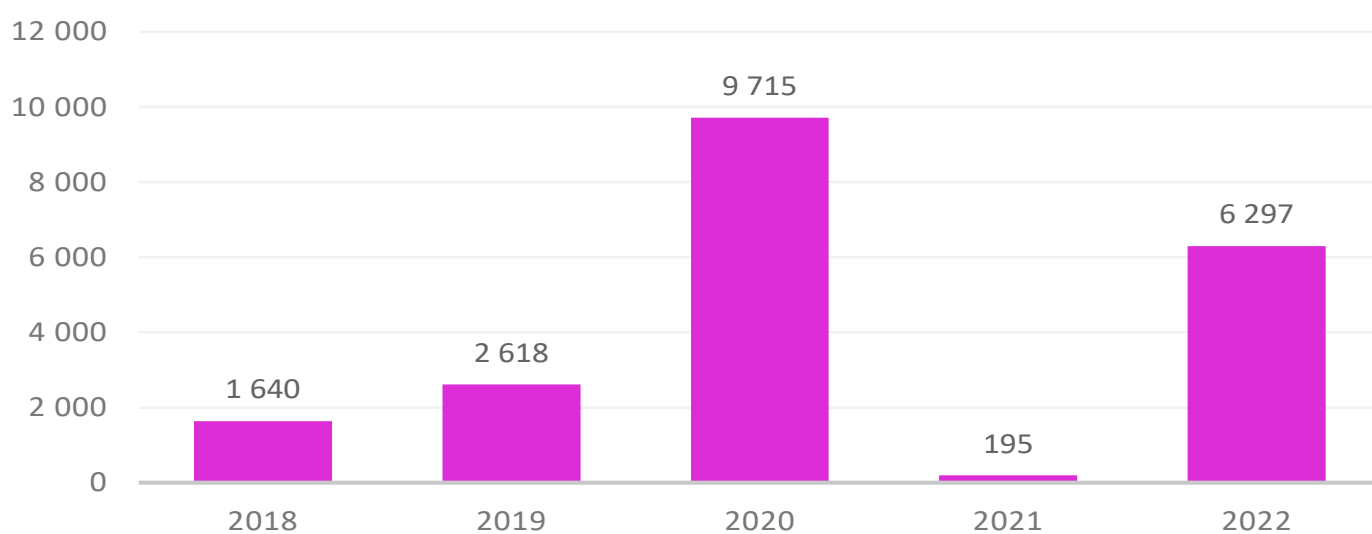

6,297 orphans were cared for throughout the year, with guaranteed access to food, clothing and education, for a total of €43,598.

Projet	Number of beneficiaries	For the sum of
Food kits	6 113	10 000€
Sponsoring orphans	184	33 598€
In 2022, our projects helped a total of 6,297 people in Lebanon for a total of €43,598.		

### Number of beneficiaries in Lebanon per year

# EAST

## Palestine

Palestine has been facing an economic and geopolitical crisis for several decades. The restrictions put in place as a result of the conflict have weakened the local economy enormously, putting the country's businesses and other institutions in difficulty. The people, who are most affected by these tensions, find themselves in a precarious economic and social situation: unemployment is high, education and healthcare are limited, and almost a third of the population lives below the poverty line. Unfortunately, a large proportion of the population has no access to the basic necessities for a decent life. The inhabitants of the Gaza Strip are the hardest hit by this crisis, many of them children. Indeed, almost 80% of the Gaza Strip's inhabitants depend on some form of aid.

As the need for aid in this country is great, we have focused primarily on our food aid projects. We also provided aid for orphans.

In 2022, the association was able to provide the following aid to Palestine:

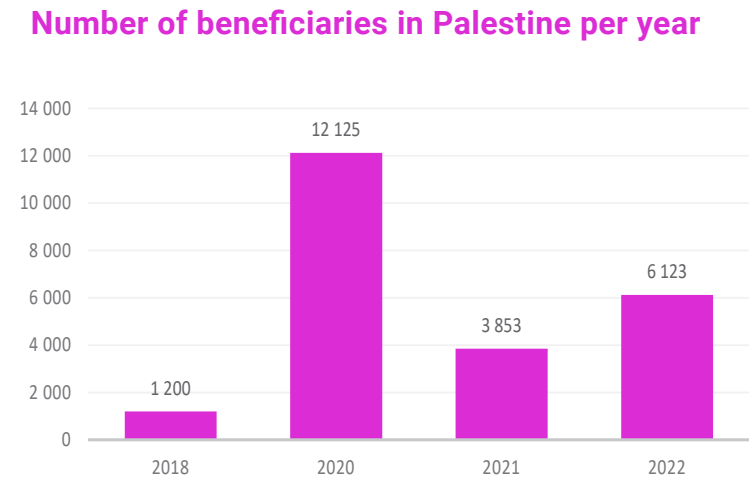

91 orphans were cared for, for a total of €16,562.

6,032 people benefited from the distribution of Food kits, worth €10,000.

Projet	Number of beneficiaries	For the sum of
Sponsoring orphans	91	16 562€
Food kits	6 032	10 000€
In 2022, our projects helped 6,123 people in Palestine for a total of €26,562.		

# EAST

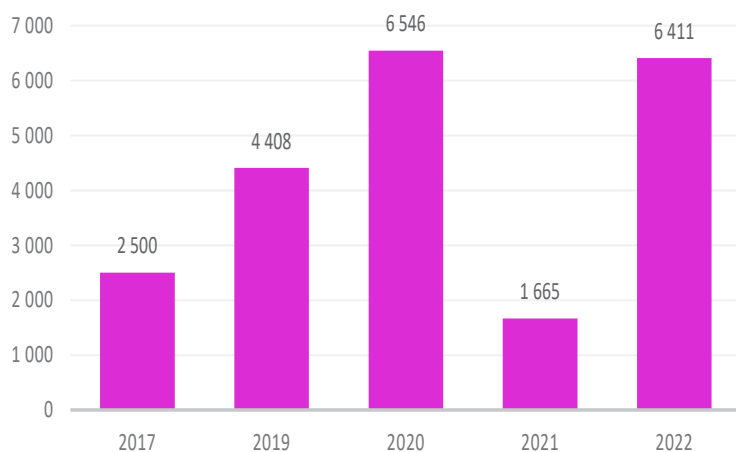

## Other poor regions of the Middle East

The Salsabil Association has turned its attention to the other poorest regions in this geographical area affected by poverty and under-nutrition, and we have also provided food aid to those most in need.

In 2022, the association was able to provide the following assistance:

6,373 people benefited from the distribution of Food kits worth €16,938.

Number of beneficiaries per year

Projet	Number of beneficiaries	For the sum of
Food kits	6 373	10 000€
Sponsoring orphans	38	6 938€

In 2022, our projects helped a total of 6,411 people in these regions for a total amount of €16,938.

# ASIE

## Myanmar

The Rohingya people, an ethnic minority in Myanmar (Burma), have been the victims of severe government repression for many years. Deprived of their most fundamental rights, they have been forced to take refuge in camps. They have no access to social assistance, healthcare or education. Their economic situation is all the worse for it. This ethnic minority is finding it increasingly difficult to live decently, and even struggles to feed and clothe itself. Once again this year, the Salsabil association came to the aid of these people, organizing food aid projects.

In 2022, the Salsabil Association was able to provide the following aid in this region:

18,200 people benefited from the distribution of Food kits worth €25,750.

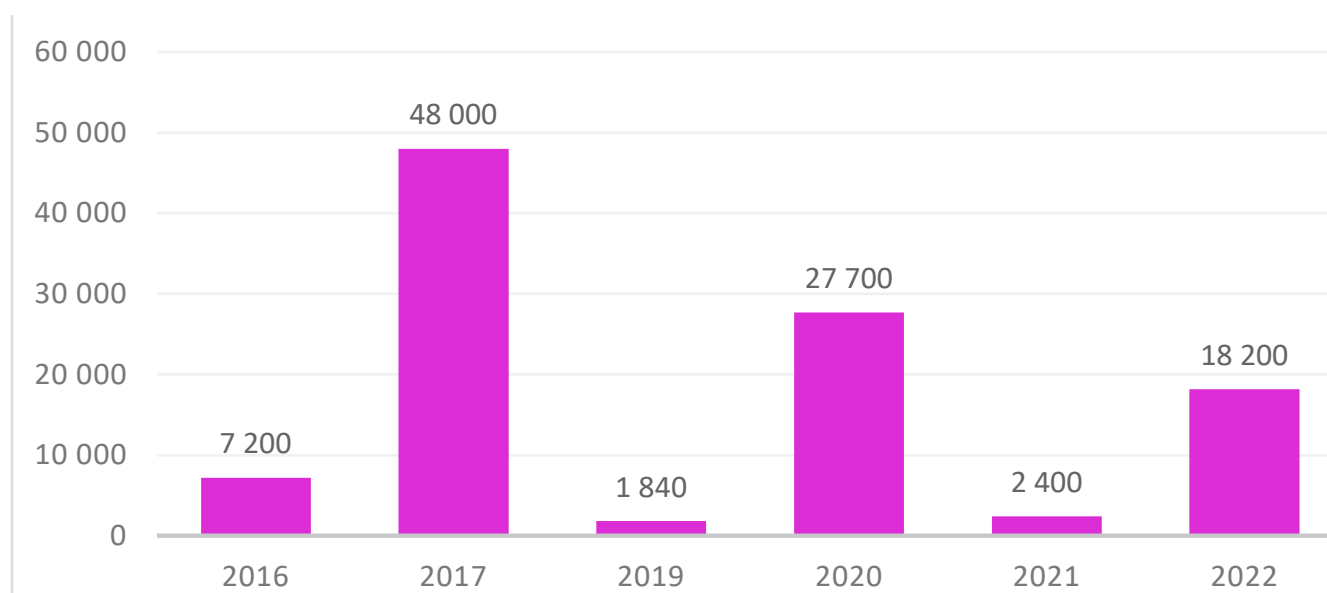

Projet	Number of beneficiaries	For the sum of
Food kits	18 200	25 750€

In 2022, our projects helped a total of 18,200 people in Myanmar for a total of €25,750.

### Number of beneficiaries in Myanmar per year

# ASIE

## Pakistan

Nearly 33 million people were affected by several weeks of heavy monsoon rains and floods that swept the country from north to south. Nearly 1,500 people died and 1,600 were injured. A million homes were destroyed or flooded. Millions of people were forced to leave their homes to escape the water, which engulfed more than a third of the country.

The Pakistani government has launched an appeal for international aid, and associations around the world are looking for ways to help these people. The Salsabil association has not stood aside and volunteered to help the Pakistani people.

In 2022, the Salsabil Association was able to provide the following aid in this region:

800 people benefited from the distribution of Food kits worth €9,900.

Projet	Number of beneficiaries	For the sum of
Food kits	800	9 900€

In 2022, our projects helped 800 people in Myanmar for a total of €9,900.

# CAUCASUS

## Georgia

After the war in Chechnya, many Chechens had to flee their homeland to survive. The refugees were scattered across Europe, in Turkey, Jordan, Syria and elsewhere. They also fled to Georgia, where some of the refugees still live. The living conditions of these refugees are not always easy, and even today our association is called upon by these refugees to come to their aid. Many of these refugees find it difficult to feed themselves properly, live in decent conditions and protect themselves from the cold. There are also orphans among these refugees, who don't have the chance to be cared for properly due to a lack of local resources.

The Salsabil Association therefore tries to help the most needy in this region, by providing them with food, and taking care of as many orphans as possible.

In 2022, the Salsabil Association was able to provide the following assistance to these refugees:

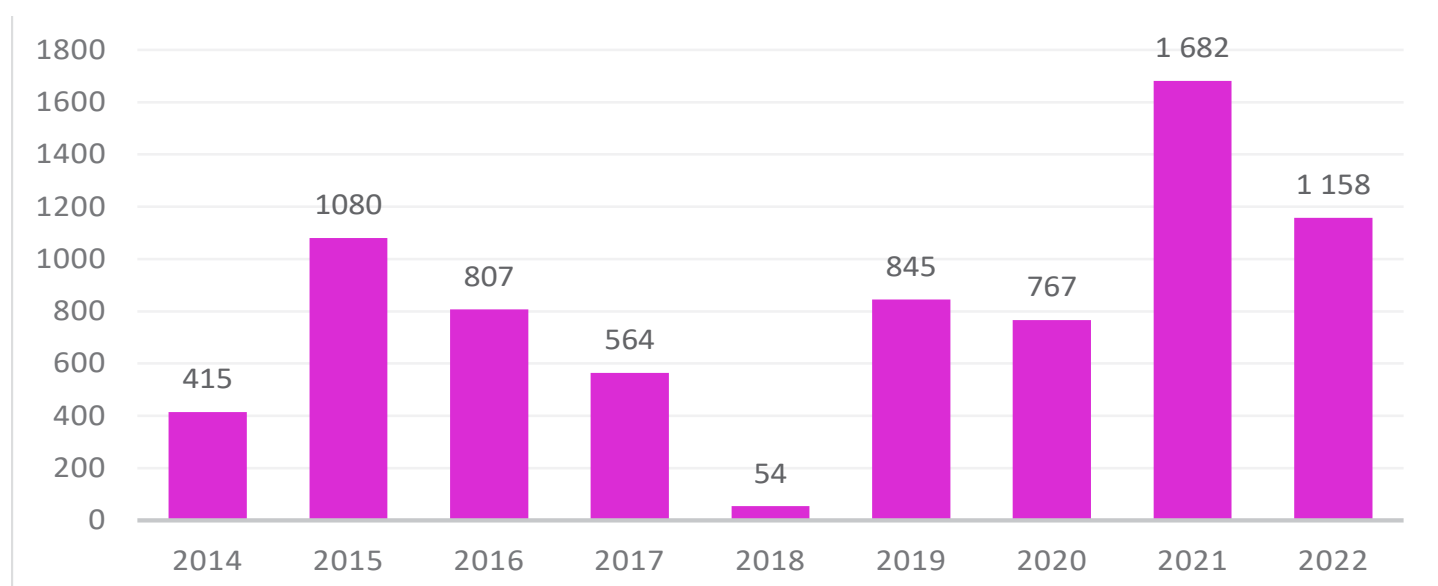

28 orphans were cared for, for a total of €10,754.

1,130 people benefited from the distribution of Food kits, at a cost of €25,246.

Projet	Number of beneficiaries	For the sum of
Orphans	28	10 754€
Food kits	1 130	25 246€
In 2022, our projects helped a total of 1,158 people in this region for a total amount of €36,000.		

### Number of beneficiaries in Georgia per year

# CAUCASUS

## Azerbaijan

Refugees are also present in this region, for the same reasons. Unfortunately, for many of them, living conditions are extremely difficult. Many struggle to obtain adequate nutrition, and external aid, although crucial, unfortunately does not always arrive in sufficient quantities.

Faced with these challenges, the Salsabil Association has taken the initiative to provide valuable assistance to refugees in this region, by implementing our food aid projects.

During 2022, our association was able to deploy significant aid in this region:

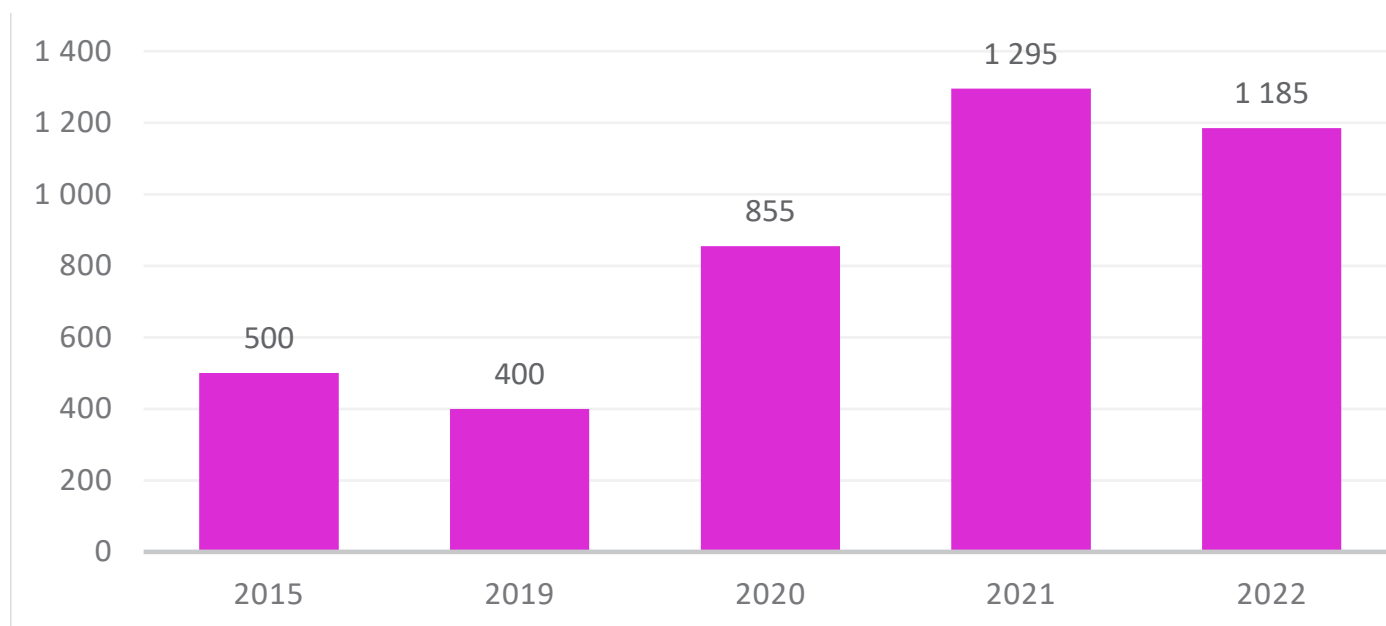

Thanks to the distribution of Food kits, we managed to reach 1,185 people, for a total amount of €23,506. These efforts, though modest in relation to the scale of the needs, testify to our ongoing commitment to these vulnerable people.

Projet	Number of beneficiaries	For the sum of
Food kits	1 185	23 506€
In 2022, our projects helped 1,185 people in Azerbaijan for a total of €23,506.		

Number of beneficiaries in Azerbaijan per year

# AFRICA

The vast African continent is today the poorest continent in the world. Indeed, the vast majority of the world's 25 poorest countries are located on the African continent. The economic crisis, the geopolitical crisis in certain regions, conflicts, the current global health crisis, but also extreme climatic conditions, make this African continent the one most in need of humanitarian aid.

Our association is well aware of this, which is why we concentrate most of our activities in African countries.

## CONTINENT OF AFRICA

## WEST AFRICA

### Benin, Niger, Togo

Niger and Togo are practically the poorest countries in the world. Nearly three-quarters of Niger's population live below the poverty line. Nearly half of Niger's population lives in extreme poverty. Togo and Benin have roughly half their populations living below the poverty line. A large proportion of the population in these countries have very little means of feeding themselves. The population of these countries also has great difficulty in accessing drinking water, due in particular to the drought in many regions of these African countries. Access to education and socio-cultural practices is also very limited.

All these difficulties faced by the population of these countries have led the Salsabil association to concentrate a large part of its actions in these countries.

We have therefore concentrated our efforts on building wells in the worst-affected regions of these countries to guarantee access to the vital resource of water, while providing substantial food aid, as many people there are literally dying of hunger and thirst. We have also addressed social issues such as the lack of education and socio-cultural centers, which are essential to the development and well-being of the population, and have built classrooms and socio-cultural centers where people can learn, develop, interact socially, pray and marry, among other things.

We have also attached great importance to the orphans present in these regions, who have not been helped sufficiently due to a lack of means on the part of the local population. Indeed, the local population has difficulty in even feeding itself, so feeding others...

In 2022, the Salsabil Association was able to provide these regions with the following aid:

43,268 people benefited from the distribution of Food kits, at a cost of €72,752.

47 orphans were cared for throughout the year, with guaranteed access to food, clothing and education, at a cost of €15,678.

1,130 Sociocultural Centers were built for 1,180 beneficiaries, at a cost of €171,985.

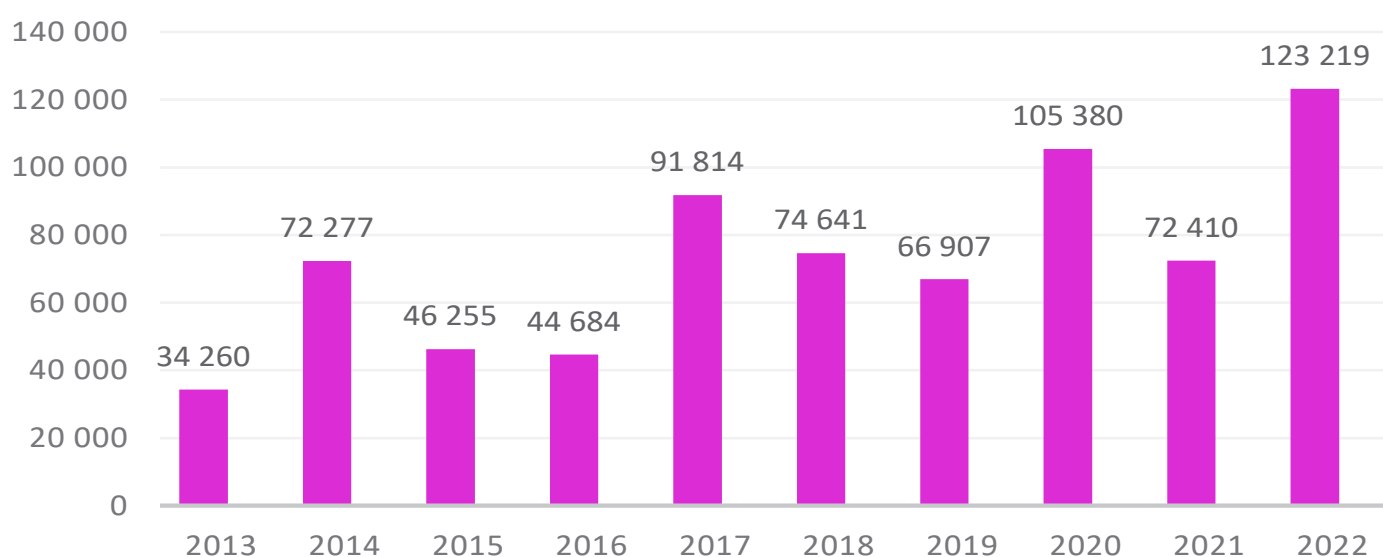

194 people benefited from our access to education project, at a cost of €6,179.

78,580 people benefited from the construction of our wells, at a cost of €336,144.

Projet	Number of beneficiaries	For the sum of
Food kits	43 268	72 752€
Sponsoring orphans	47	15 678€
Socio-cultural centers	1 130	171 985€
Education projects	194	6 179€
Wells	78 580	336 144€

In 2022, our projects helped a total of 123,219 people in this region for a total amount of €602,738. €.

### Number of beneficiaries in West Africa by year

# AFRICA

## Other poor Sahel regions

We also looked at other poorer regions where we could provide optimum assistance. We therefore decided to focus on the Sahelian belt, which is also home to populations in extreme difficulty. This aid was provided in particular in the most remote villages, victims of drought, extreme poverty and a lack of socio-cultural and educational structures.

The Salsabil Association's action in these regions has therefore been similar to that carried out in the African countries mentioned above, i.e. the supply of food products, the construction of wells and socio-cultural centers, and access to education projects.

In 2022, the Salsabil Association was able to bring the following aid to these regions:

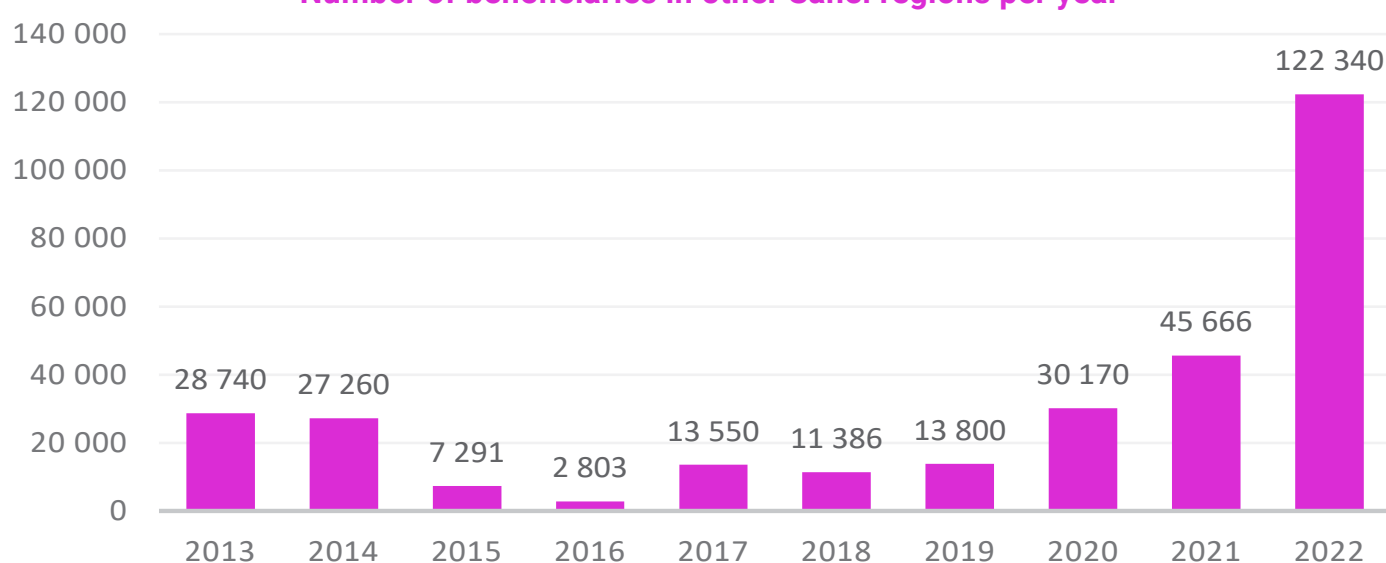

122,340 people benefited from the distribution of Food kits amounting to €97,279.

Projet	Number of beneficiaries	For the sum of
Food kits	96 170	52 500€
Puits	26 170	44 779€

In 2022, our projects helped a total of 122,340 people in these regions, for a total amount of a total of €97,279.

### Number of beneficiaries in other Sahel regions per year

## CONCLUSION

The year 2022 has been a very difficult one for many people around the world. Economic, social, geopolitical and climatic crises were accompanied and exacerbated by a global health crisis that left many people dead and sick. Our association has tried to adapt to this crisis and continue to carry out our projects as effectively as possible. In the end, our efforts paid off: we were able to help almost 140,000 needy people around the world thanks to our various projects, all of which were of vital importance. This €526,528 in aid would never have been possible without our donors, who contribute enormously to the survival and well-being of hundreds of thousands of needy people.

## CONCLUSION

We've been acting since 2013 with our humanitarian aid projects and never thought we'd continue to grow so much, bringing help to more and more people every year, being more and more efficient in carrying out our projects. For our part, we pledge to continue doing everything in our power to develop further and provide help to more people around the world. The association would like to thank all our donors, our local partners and all those who contribute in one way or another to our projects.
